Knowledge Summary

- Over 15 years of experience in graphic, web and interactive design
- Experience with B2C/B2B/B2B2C client design rationale and presentation skills
- Servant Leader who fosters personal relationships, motivation and growth
- Experience working on the full life-cycle of SaaS development projects including Prototypes, Wire-frames, Mock-ups and User Journey Maps
- Expert in all stages of web design including client relations, branding and discovery phases, persona development, UX testing, UX design, information architecture, responsive design, front-end coding, creating hand-offs for developers and communicating effectively with developers
- High level design thinking including design systems, team organization, developing process guides, training materials and vetting new hires
- Exercises judgment, logic, integrity and initiative in a remote environment

Technical Skills

- Fluency in Figma, Adobe Suite and with project management tools such as Asana, Notion, etc. Proficient with HTML and CSS. Master of working remotely (8 years).
- Knowledge of standard Mac office apps (I have an irrational fear of windows)
- Expert in 508/ADA compliance for web & print document remediation
