"Oikos Evangelism" – Friendship Evangelism

Oikos is a Greek word often translated "household" in the New Testament. In English, "household" means the nuclear family. In biblical Greek, however, its usage was much broader and included family, neighbors, co-workers and friends and those with whom we come into regular contact. Statistics show us that 90% of people get saved through a friend or family member.

What if you prayed for 5 unsaved/backslidden people that are close to you for 30 days and see where they are with God? And what if at the end of 30 days you invited them to church with you?

YOU
