

RLTM-M120

REUSABLE REAL-TIME LOCATION, TEMPERATURE & MOISTURE
TRACKER & DATA LOGGER

RLTM-M120 keeps track of your package during the transit for upto 120 days and reports the condition parameters in real-time. Sensor data is analysed by the RealMeds platform for elaborate counterfeit checks and environment condition breaches. Notifications are sent in real-time so that you can respond better.

Do not just guess!
Track what your
package is subjected
to!

TECHNICAL SPECIFICATION

Type	Multiple Use/Real Time
Operating Temperature	Temperature sensor: -40°C to +85°C Humidity sensor: 0°C to +85°C
Measuring Range	Temperature: -40°C to +85°C Humidity: 0 to 100%
Accuracy	± 0.5 °C ± 0.5%
Resolution	0.1°C
Battery	Rechargeable 3.7V 4000 mAH Lithium Battery
Upload	Temperature, Moisture, Location, Battery Level
Recording Duration	upto 120 days
Start/Stop	By Button/RealMeds Cloud
Communication	Quad band GSM GPRS 850/900/1800/1900 MHz
Dimension	85 mm x 51.5 mm x 9.4 mm
Weight	Approx 54 Gms
Configuration	via RealMeds Cloud platform
Validation Certificate	CE, FCC, RoSH - included
Report	Downloadable PDF from RealMeds Cloud
Alarm Range	High & Low Alarm (Cloud Programmable)
Connection	BLE + 2G (GPS+GPRS)

KEY HIGHLIGHTS

- Upto 120 Days battery
- 24x7 monitoring and analysis
- No Installation needed
- On-device storage
- Geofencing and counterfeit checks
- Real-time notifications
- Put inside a package or mount inside a cold storage container
