

**Solidarity message from Iranian Human Rights, Ethnic Rights, Women's Rights and Political Organizations to the "International Emergency Campaign to Free Iran's Political Prisoners"**

**By now the world has learned that with over 4 decades of history in ruling over Iran, the Islamic Republic's response to its people's waves of protests has always been and will be torture, imprisonment, execution and mass murder.**

**We, the undersigned plead with the humanity's conscience, and the international communities to boycott the Islamic regime of Iran whose president is named by Amnesty International as an executioner.**
