

Statement from Professor Reza Ghoraishi

For more than 40 years, the Islamic Republic of Iran has brought nothing to the people of Iran and the world except brutal repression, killing, ignorance and suffocation at home, and the policies of inciting wars in the region.

To justify its policies, it has relied on the slogan of "fight against American imperialism," a valuable gift to the US government for its catastrophic military presence in defense of its reactionary allies in the region. The struggle against the Islamic Republic cannot be done by relying on the help and support of the United States, rather we must fight against both imperialism and Islamic Republic at the same time. We must say "no" to both of them.
