

Ariglad onboarding plan

1 Admin Onboarding

Our team will introduce the solution to all Ariglad admins and offer training to all relevant parties. This usually takes up to an hour.

2 Employee education collateral

We'll work with your team to establish a plan to educate your employees on the opportunities they have access to via Ariglad (ex. an Ariglad rep can join an All-Hands to demo the tool/answer questions)

3 Internal announcement

Ariglad provides a variety of templates available for Ariglad admins to use when announcing the solution internally.

4 Ongoing Customer Success Support

By scheduling ongoing Customer Success calls, your team will be able to receive ongoing support in your use of Ariglad (ex. best practices & product updates).

5 Achieve Culture Goals

The aim of the onboarding plan is to achieve the culture goals that your team has set. We're here to support you every step of the way.
