Though Bloom Academy Charter School will not be conducting activities under all these programs, the ESSER III application approval grants the district the option of doing so.

Activities authorized under Individuals with Disabilities Education Act (IDEA). Activities authorized under Individuals with Disabilities Education Act (IDEA). Bloom Academy Charter School will ensure that children with disabilities continue to receive a free appropriate public education (FAPE) and may spend ESSER III funds on allowable special education and related services expenditures. This includes such activities as increasing teacher effectiveness and addressing inequities in the distribution of effective teachers; establishing data systems and using data for improvement; and providing effective professional development related to evidence-based practices and interventions.

Address the unique needs of low-income students, students with disabilities (SWD), English learners, racial and ethnic minorities, students: Professional development will train Bloom Academy Charter School's staff in how to build meaningful, productive relationships with every student and every colleague and how to create a safe, effective environment for learning. ESSER III funding will also provide critical strategies to address students' needs by building strong inner selves and identifying and addressing socio-emotional insecurities and deficits. Use ESSER III funds for personnel to provide services to Bloom Academy Charter School's students who would otherwise not meet the federal eligibility-for-services requirements.

Mental Health Services: To reduce the trauma, grief, and isolation caused by the COVID-19 pandemic, Bloom Academy Charter School's counselor will join morning meetings and to connect with students. Counselors will be allowed to meet with both during school and before and after school hours to accommodate the social and emotional needs of students and their

caregivers. Counseling resources will be provided. Counseling sessions will take place in a safe meeting space and tele-counseling will be made available. All activities will be conducted in such a way as to help safely reopen and sustain the safe operation of the campuses.

Implementing evidence-based activities: Bloom Academy Charter School has engaged an instruction coach to provide teachers with professional development in the use of evidence-based activities designed to improve the student achievement of all students and especially low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. The evidence-based activities will take into account the safe operation and reopening of the campuses.

Tracking student attendance and improving student engagement in distance education: ESSER III funding will provide Bloom Academy Charter School with the methods and personnel needed to create data related to attendance and student engagement when involved in a distance learning atmosphere.

Maintain the operation and continuity of services: ESSER III funding will be used by Bloom Academy Charter School to implement, as needed, a process to encourage people and departments to plan to address how critical operations will continue under a broad range of circumstances. It is important as a good business practice and because the planning fosters recovery and survival in and after emergency situations such as the COVID-19 pandemic. A plan addresses emergencies from an all-hazards approach. A continuity of operations plan establishes policy and guidance ensuring that critical functions continue, and that personnel and resources are maintained and, if necessary, relocated to an alternate facility in case of emergencies.
