BIO:

I am a visionary that believes business is more than a product or service. It's about change and building up others. Creating things that are RELATABLE.

I've had many changes in my life. From a thriving music career performing for 1000's to being an IT manager for a financial company to running my own business growing a team doing video production and becoming a marketing architect.

One thing that stays consistent is my work ethic and surrounding myself with good people that push me further every day.

I am the proud owner of Foureva Media and soon to be the author of my new book "Change your Circle, Change your Life".

Change Your Circle, Change Your Life is a direct lifestyle that needs to be applied continuously for any human being to be successful. Through these chapters, you will go through so many mental and physical shifts that will challenge you as a human being. The purpose of this philosophy is to enhance your lifestyle and promote your growth. The more circles you touch, the more lives you can change.

If you follow the ideas in this book, that is going to increase the chances of opportunities to change your life.

50% Mindset meets 50% Action

"Change your Circle, Change your Life"
