

Top Reasons To Automate Prescription Storage and Pickup

IF YOU HAVE NOT AUTOMATED YOUR PRESCRIPTION STORAGE AND PICKUP PROCESS, *HERE'S WHAT YOU'RE MISSING.*

Pharmacies have become a critical component in delivering healthcare in today's world.

As the role of pharmacists continues to evolve, innovative automation technologies are freeing up pharmacy staff to focus on patients and delivering care.

Here are some ways automating prescription storage and pickup benefits both pharmacies and patients.

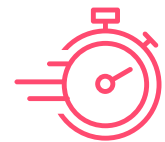

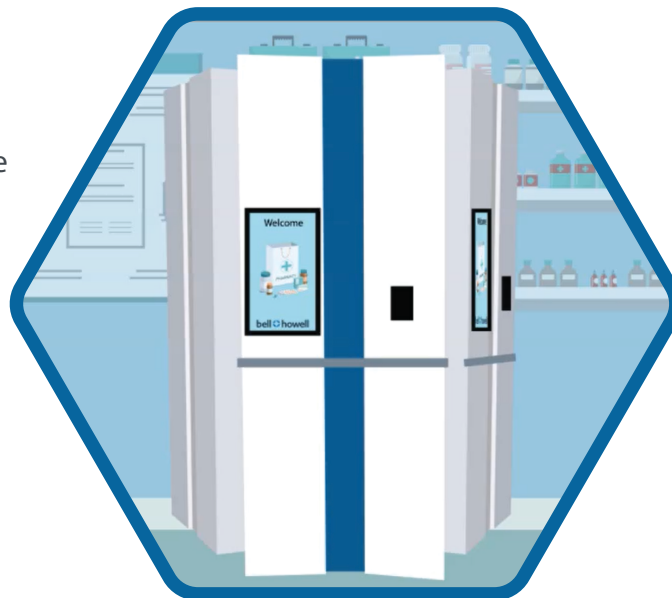

Provide patients with the contactless and self-service experience they desire

Improve accuracy by reducing prescription storage and retrieval errors

Decrease script abandonment and improve inventory control

Reduce wait times and long lines at the pharmacy counter

Free up your pharmacy staff so they can focus on your patients

Expand pharmacy services with extended hours and flexible deployment
