

THE AUTONOMOUS SWEEPER B1

Made in
Germany

 **STOLZENBERG**
Solutions for a cleaner world.

BASED ON WORLD-CLASS SWEEPING
TECHNOLOGY FROM STOLZENBERG

The autonomous sweeper B1 from ENWAY makes outdoor sweeping, as well as the cleaning of warehouses, production areas, and smaller locations more sustainable, safer and efficient.

Technical Specifications

- ✓ 6 hours cleaning operation
- ✓ 360-degree all-around view for safe navigation
- ✓ 150 liter waste container
- ✓ Automatic dumping
- ✓ Safety contact switch
- ✓ Sweeping width 148 cm
- ✓ L215 cm x W139 cm x H185 cm

Performance

- Independent and process-reliable cleaning of industrial surfaces
- Autonomous operation, even in dusty areas and hazardous environments
- Sweeps up bulky materials such as plastic granulate, wood, metal parts
- Complete cleaning documentation enables ongoing process optimization
- Reduces cleaning costs, and therefore overall costs
- 360-degree view enables operation under overhead items
- Flexible cleaning 365 days a year
