we are Rug Busters.

our mission.

# A massive opportunity to change the crypto world

Some of us got in early in Safemoon or other very successful DeFi tokens. We wished we got in even earlier than we did so we're always on the lookout for new tokens freshly created. We listen to the team, hear their dreams, believe in their 100x target goals and we invest.

Disappointments after disappointments, we open our eyes and realize 90% of the hyped projects are scams, liquidity rug pulls, marketing fund rug pulls, taking our hard earned BNB.

We asked ourselves why we threw our brains in the trashcan every time there was a "new Safemoon" and understood that many did the same, acknowledging the many others that invested significant amounts in these scams.

Rug Busters aspires to bring a revolution into the crypto world. We fight together with our community to prevent scams and money loss. We can't save you from everything, but we can make your journey in the cryptospace a whole lot safer.

Rug Busters is also a trusted launchpad, collaborating with vetted teams and audited tokens. Providing a seamless and trusted crypto investing environment, delivering tokenized benefits to our RUGBUST holders.

our mission.

# 5

**There is a  
power in  
unity. We  
aspire to  
provide a safe  
space for your  
investments.**

our vision.

# A safe, fair and beneficial crypto space where rug pullers fail and gems are shining

Crypto dreams mean that you can see an unbelievable gain in a short period of time. 10x has become a normal outcome for our investments, now we want more, 100x and even 1000x. We all hunt down these higher and higher gains. A few hundred years ago there was a gold-fever. Today there is something we could call crypto-fever, one of the biggest hypes in history. Trillions of dollars entering the crypto markets as we speak. But, with such an enormous amount of money come opportunists with bad intentions.

We have analyzed tens of coins and tokens in the last few weeks. We have revealed many shady and downright fraudulent practices. Thieves, scammers and other kinds of scumbags become smarter day by day. But we will be there to un-mask them.

Rug Busters will build a safe ecosystem, overseeing all the steps from vetting the team and auditing the token to launching the project and marketing afterwards. We seek to incubate the most trustworthy and high-quality coins and tokens.

# 1. Ruggy\_Bot

Ruggy is our Proprietary Bot which scans token contracts for possible frauds, providing in-depth analysis of supply, burned amount, deposited LP, how much of the LP is locked and much more.

As scammers come up with new Rug Pulls, like the honey pot scam where you can only buy and NOT sell, Ruggy gets updated to unveil these criminal actions.

Community members can report scams to our website, where they will be added to our Scam List.

The goal is to build the most comprehensive database of tokens and rank them from safe to scam.

# 2. Launchpad

Rug Buster Launchpad is safe and trusted. Collaborating only with vetted teams and audited tokens, supporting not only the pre-sale but also the listing and the marketing needed to make the projects a success when they are freely traded.

\$RUGBUST holders profit because they:

- Know Rug Buster Launchpad projects are a safe investment
- Get Airdrops from projects
- Get Guaranteed Pre-sale access
- Can be eligible for discounts on certain projects

Rug Busters can't Save you from Everything, but we can make your journey in the cryptospace a whole lot safer and more profitable.

# 3. Academy

Rug Buster will open an Academy to educate the community, provide them with useful tips and resources:

- The basics of token contracts
- How do scammers execute Rug Pulls, what to look for
- How to interpret Ruggy Audits
- Videos
- AMAs

Rug Busters Ranks.

• Private Hold  
50 \$RUGBUST

• Corporal Hold  
500 \$RUGBUST

• Sergeant Hold  
2000 \$RUGBUST

• Major Hold
