

Circus Wood

EDITS

Specification Sheet 2021

Circus Wood is a contemporary edit of the archetypal Scandinavian wood chair. Defined by a clear visual logic, innovative construction details and advanced manufacturing are combined to achieve a graphic and elegant form. The characteristic legs symmetrically direct the lines of force supporting the occupant, with the curved backrest offering a generous embrace and arm support. Beautiful European Ash in a natural-white finish or colored lacquers further elevate the design's contemporary character. Smooth edges provide unexpected softness and tactility, while upholstered seat pads can be added as a further option for comfort and color.

- _FSC-certified White Ash
- _Solid wood frame
- _Curved plywood seat and back
- _No visible joints
- _Non-marking plastic feet
- _BIFMA-Compliant
- _Made in Italy
