A little about the role....

No two days are ever the same. Reporting into the Fabric Manager, your role will consist of painting, decorating and dealing with reactive works such as plumbing, basic electrics, problem solving and general maintenance. You will need to be willing to travel to meet the needs of our clients based around East Sussex and Kent but also further afield when required. As a mobile multi-skilled engineer you will likely be our 1st responder on a reactive basis covering a wide variety of works. Your work will be integral to the smooth running of the business.

UK Facilities Solutions as a company....

UK Facilities Solutions is a growing operator within the building and maintenance sector. We pride ourselves on being customer centric and delivering a fantastic range of services to our clients. We are now looking to recruit a Painter/ Multi-skilled mobile Engineer to join our team. As our company continues to grow we require talented, and career driven professionals to help us reach our goals.

What you'll need to succeed

You will have a high degree of autonomy and need to be a self-starter who can manage their own time through prioritising and completing tasks. Having a 'can do' attitude is key along with strong interpersonal skills. You will be required to willingly assist and support other team members to complete tasks outside your skill set. You will need to have previous maintenance skills and be prepared to develop these across several trades. Prior knowledge and experience working in plumbing or electrical services would be advantageous. You must be adaptable, flexible and willing to travel.

What you'll get in return...

This is a fantastic opportunity working with a team of multi-skilled experienced engineers. As a team member you will receive a competitive salary, a company Vehicle with a fuel card, a mobile phone and a pension.
