

AIMeCAST

Accelerated Performance Powered By Employees

AIMeCAST empowers your organization to create, communicate and share business critical information naturally.

Your employees need a simple to use and agile solution that inspires cross-functional collaboration, improves internal communications and accelerates customer engagement.

AIMeCAST is a digital communications solution for employee and stakeholder engagement, unlocking increased knowledge sharing, training, connectivity and community.

Distribute customized content targeted to specific teams or the whole organization.

Gain insights into employees' engagement with a powerful analytics dashboard. Learn which topics and channels support the highest performance and interaction.

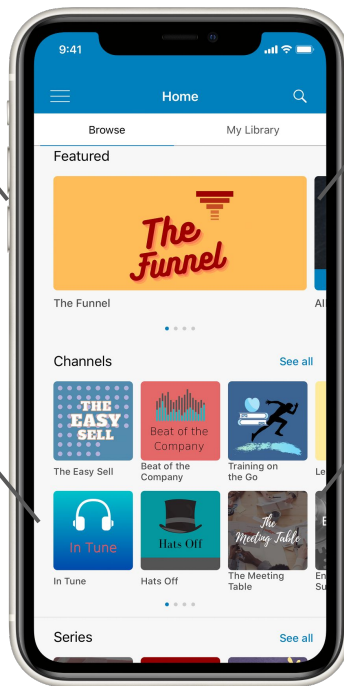

Curate all critical resources, product and team updates, training content, messages from HQ and much more. Include and organize content from other platforms all in one place.

On-Demand Content On Any Device, Globally

Reach users on computers, tablets, and phones.

Intuitive Content Management

Channels let you organize content by topic or audience.

Featured Content

Curate and highlight important messages so your audience can't ignore it.

Engaging User Experience

Slick interfaces, just like the audio and video apps we use for entertainment everyday.
