

## Position Description

### Real World Evidence (RWE) Specialist

---

#### Evio Overview

Evio is a Denver-based pharmacy solutions startup that works with health plans to transform the medication experience for everyone: patients, providers, and the system at large.

In 2019, a group of five amazing health plans that in total serve more than 20 million members recognized that despite the miracles that medications can deliver every day, the way medications get to patients is in need of reform—rapidly rising costs and inefficient system complexities have proven detrimental to patients and the industry alike. Each company made a significant investment to establish Evio as the independent entity to lead this transformation.

Evio will elevate the people who use medications to be the focus of all innovation, and apply real world evidence to build technology, solutions and insights. We will ensure that every patient receives the right medication for their unique situation, from the beginning, in a simple and affordable way. Achieving the quadruple aim of improved experiences and health outcomes for people, reduced costs, and clinician fulfillment is our goal. Clinical, evidence-driven drug decision making will lead everything Evio does.

Initially, Evio will offer services to each of the five investor health plans to complement other innovative pharmacy services the health plans offer. Upon launch, and on the path to broader transformation, Evio's first priorities include:

- Using evidence and data from real patient experiences to ensure the right medication gets to every patient, where, when and how they need it.
- Developing new, and enhancing existing, partnerships that leverage the innovation happening in the pharmacy and broader healthcare and analytics sectors today—to improve affordability, outcomes, and experience for patients.
- Continuing the evolution toward value based care and enhancing outcomes based contracting in the pharmacy space, especially on high cost drugs.

#### RWE Specialist Role

We are looking for a talented individual to join our team as a RWE specialist to support the creation and ongoing development of Evio's products and services designed to transform the patient and provider experience.

##### Job Specifics

The RWE Specialist role will primarily support strategic product value generation initiatives through statistical programming and analytics for observational and real-world evidence using large health care administrative databases, electronic medical records, and registries. This individual will utilize web-based analytics tools and other programming languages (e.g., SQL, Python) to efficiently work with very large real-world databases, to identify and discover target patient populations, disease prevalence and risk factors, drug utilization, treatment patterns and disease progression, and other exploratory questions. In this role, the ideal candidate will work

closely within cross-functional teams to execute and deliver on projects in an accurate, effective, and timely manner. In collaboration with these teams, you will design and execute real-world evidence (RWE) projects. In doing so, you will –

- Inform strategic decision-making about the best use of medication and other applicable technologies.
- Empower Evio to differentiate itself as market leader in real-world analytics.
- Support external decision-making by key stakeholder groups such as patients, payers, and prescribers.
- Contribute to the wider epidemiological and medical understanding of specific diseases by:
  - Designing and providing input on RWE Strategy & Tactical Planning for respective patient populations.
  - Developing and planning RWE design and execution, including protocol development and analysis specification following best methodological standards.
  - Performing analysis of clinical data in support of market access, HEOR, and RWE.
  - Testing and validating real-world analysis results to prevent erroneous or inappropriate application.
  - Collaborating with RWE contractors and external vendors on RWE projects and providing analysts with clarifications concerning protocol implementation.
  - Creating reports and presentations of results or work in progress.
  - Ensuring quality and replicability (i.e., through appropriate documentation and validation) of results, deliverables and work performed.
  - Driving interpretation of analysis in collaboration with internal stakeholders and communicating analysis interpretation internally and externally.
  - Providing strategic input to internal stakeholders based on RWE activities and robust epidemiological and medical understanding of the patient population in focus.
  - Representing RWE on Evio's functional teams (e.g., Clinical, Product, Analytics, and Corporate Development).
  - Driving innovative study designs, including new data sources and advanced analytics (incl. digital pharmacoepidemiology).
  - Supporting development of economic models for financial projections and risk.
  - Supporting outcomes-based contracting/partnerships with pharmaceutical companies.
  - Managing multiple projects and collaborating across cross-functional teams.

The skills and experience you bring to this role include:

- Master's degree or PhD) in Epidemiology, Outcomes Research; or Doctoral trained professional (PhD, PharmD, MD) with an emphasis in health services research, health economics research, public health research, health services; or related field or other relevant scientific discipline, with a track record of publications in high-caliber peer-reviewed journals.
- At least five years experience in having successfully delivered global and/or local RWE projects from conceptualization to publication within the pharmaceutical industry (or with a recognized expert consultancy or academic center of excellence), using primary as well as secondary data such as large healthcare databases.
- At least five years of hands-on experience in working across internal stakeholder functions (e.g., medical affairs, market access, clinical development, etc.) to develop the optimal RWE strategy and tactical plan to support an asset within a specific disease area or focus.
- Experience in extracting, organizing, and analyzing data from claims databases, electronic medical records, disease registries, or other epidemiological data sources.
- Working knowledge with real world data web-based analytics tools and other programming languages (SQL, python, etc.).
- Actual experience in modeling clinical outcomes, risks, prognostic factors, health resource utilization, or comparative effectiveness.
- Combination of strong methodological quantitative knowledge, strategic, innovative thinking, and communication skills.

- Background knowledge of industry trends and best practices, specifically related to epidemiology/outcomes research.
- Good knowledge and understanding of applicable regulations in pharmacoepidemiology, pharmacovigilance and clinical development.
- Expertise in the US healthcare environment (and changes therein).
- Proven ability to communicate with cross-functional teams to present analysis plans and results through written reports or oral interactions and presentations.
- Able to deliver impactful presentations to senior management or industry audiences with a relaxed and proficient presentation style.
- Passion for developing and maintaining strong collaborative relationships with key partners and stakeholders based on in-depth understanding of stakeholder needs and strategic focus.
- Ability to proactively use relationships with internal and external stakeholders to provide strategic input through synthesized thinking, building advocacy and empowering implementation of the solutions in support of creating value for patients and prescribers.
- Ability to work independently from home and support all time zones, regardless of where based.
- Ability to work in a fast-paced environment.
- Ability to travel, as needed.

Every Evio teammate is critical to our culture and success. For all candidates, across roles and levels, you demonstrate that:

- You have a high degree alignment with Evio's mission and values.
- You put the patient first, leading with clinical, and doing something transformational for US healthcare is in your DNA.
- You are an energy producer, with a proven ability to "get stuff done" (GSD) and support others.
- You are a curious, creative and overall strong problem solver who is a go-to subject matter expert where you need to be.
- You are a resilient challenger of the status quo that drives improvements on every topic from creating team rhythms and culture to the next clinical strategy for the team to pursue.
- You thrive in ambiguity and are comfortable rolling up your sleeves on business strategy, team, execution and other elements that will certainly change as the team fails fast, learns and pivots.
- You are a proven leader who inspires confidence and establishes processes and team structures that are conducive to teammate and company growth.
- You are emotionally intelligent and you do well collaborating with multiple parts of the business and functioning well with a variety of styles.

### Salary Considerations

Anticipated annual base pay range: \$160,000 - \$200,000

At Evio, we're committed to building a competitive compensation package to honor the value our teammates bring as well as attract and retain top talent that is aligned with our culture, mission and values. Compensation includes base pay (range shown) and could include other variable compensation opportunities depending on job seniority, location, and date of hire. Evio also offers a number of attractive benefits to eligible teammates including health insurance, retirement savings, life and disability insurance, paid and unpaid time off, and other benefits to make sure Evio teammates and families are well supported.

Please note that the base pay information shown is a general guideline for the job responsibilities and qualifications listed. Salary decisions are based on candidate experience, and market and business considerations.

## Evio Benefits

- **Great Health Insurance**  
The company pays 100% of medical, dental, and vision premiums for teammates, and 50% for dependents.
- **401K Match**  
Evio matches 100% of teammate contribution up to 5% of salary, subject to IRS limits. 401K is administered through Guideline.
- **Time Off**  
We have a flexible vacation policy for teammates to unplug and recharge when you need it. There is no minimum or maximum amount of vacation allowed per year, and there is no payment in consideration for unused vacation. Vacation is to be used at your discretion, with approval of leadership.
- **Parental Leave**  
Generous paid leave for new parents (includes birth and non-birth parents).

## Evio's Values-Driven Culture

### EMPATHY

*The people our business serves always come first. We put ourselves in the shoes of the patients, clinicians, and stakeholders our solutions benefit.*

### DIVERSITY

*We're committed to fostering a culture where everyone belongs and is valued for their background, experience and insights – one that encourages diversity of ideas, and is a nurturing, trusting, and accepting place for all.*

### ADVENTURE

*We're flexible, thrive in ambiguity, fail fast, and pivot quickly to get to a better answer. We celebrate wins and pivots with equal intensity.*

### RELENTLESS

*Guided by evidence and data, we are creative, curious, and unwavering in our pursuit of challenging the status quo and each other.*

### TRANSPARENCY

*Just as we seek to bring transparency to the pharmacy supply chain, authenticity and integrity are core to the way we communicate.*

### EXCELLENCE

*We strive to raise the bar in all we do by hiring and developing exceptional talent and holding ourselves and our thinking to the highest standard.*

## To Apply

Please send your resume to [careers@evio.com](mailto:careers@evio.com) and, in lieu of a cover letter, the answers to the following questions:

- What makes you unique in 50 words or less?
- Why health care in 50 words or less?
- What excited you about joining the Evio team in 50 words or less?

*Evio is an Equal Employment Opportunity employer. All qualified applicants/employees will receive consideration for employment without regard to that individual's age, race, color, religion or creed, national origin or ancestry, sex, sexual orientation, gender, gender identity, pregnancy, physical or mental disability, veteran status, genetic information, ethnicity, citizenship, or any other characteristic protected by law.*
