## Bricks and Mortar Media Limited (BAMM.tv)

Drawing from a long experience in live music production, BAMM.tv serves as a full service digital consultancy, providing audio-visual planning, research and production facilities to key decision-makers in the broadcast, online and corporate sectors.

BAMM.tv team members collaborate intensively with clients, producing bespoke solutions through efficient workflows and cost-effective new technology.

Projects range from complete programming formats for broadcast and online distribution, to immersive experiences in real-world locations, to ad hoc videos.

The company has offices in London and San Francisco.

BAMM.tv partners with clients to develop cost-appropriate, coherent strategies for audiovisual production, distribution, licensing and marketing. Since 2008, they have worked directly with MSOs, content aggregators, device manufacturers, broadcasters and private clients worldwide to produce live music performance, unscripted reality, short- and long-form documentary, CGI/digital animation, advertising, publicity and private corporate videos.

BAMM.tv-produced programmes are robustly licensed, for global distribution. They have built a bespoke back-end system to power global distribution networks. BAMM.tv has extensive experience with own-branded and white-labelled Android and iOS app development. Clients have included Samsung (Korea), Google (USA), Chunghwa Telecom (Taiwan), net mobile (Germany) and Oi (Brazil).

BAMM.tv also provides consultancy to key decision-makers seeking advice to implement structural or developmental audio-visual projects. The company applies local market knowledge, and understanding of global cultural trends in the digital media space, to address the particular conceptual and practical challenges of its partners' circumstances. Specialised

training packages for workflow improvement and team effectiveness are also offered. Clients are located in the UK and Western Europe, North, Central and South America, and East Asia, and are in both the private and public sectors.

*“BAMM.tv has a dynamic approach to business, providing Hollywood-like content in a meaningful way, through leadership, vision and perseverance.”*

Moe Vela, The Vela Group (USA)

*“BAMM.tv was the right choice to develop, produce and implement the 2017 Taipei Pop Music international workshop. They communicate procedures clearly and directly, and understand our local market.”*

Ni Chung-hua, music producer and former cultural commissioner, Taipei City Government (Taiwan)
