i.AM Lab Project Manager (80-100%)

Do you want to be part of our growing team that **shapes the future of investing, from finance to art with a focus on Digital Experiences, Digital Assets and Web3**? Would you describe yourself as an open-minded, communicative and pragmatic Project Manager?

At the **i.AM Lab** you can expect to work in an entrepreneurial start-up environment, in which you can incrementally build up a business from scratch. Our innovation project pipeline is full, and the rapid development of prototypes and MVPs is a focus of our work.

If that sounds interesting to you: Continue reading!

Your Role
– Responsible for the day-to-day management of platform and app projects
– Ability to impact all sorts of stakeholders on suggested routes and options with the ambition to increase the overall success
– Ensure smooth operation throughout a project's lifecycle, to set the lab up for success and ensure the delivery of projects with respect to quality, time and budget

Must have
– Experience in project management of innovation projects and/or agile projects in general
– Experience in agile project methodologies
– Excellent time management skills
– Excellent analytical and problem-solving acumen
– Strong collaboration, team player and keen to learn new skills

Nice to have
– Experience in Design Thinking and Lean Startup methods
– UX and UI affinity
– Entrepreneurial spirit, a 'Doer' mentality
– Ability to multitask in a fast-paced team setting/environment
– Ability to drive forward and role-model agile behavior

What you can expect
– A highly motivated and innovation-driven team
– Your own field of action and great independence
– Turn ideas into real projects and accelerate innovation
– Latest industry knowledge through our close cooperation with universities and research hubs
