Note 2 - Significant accounting and valuation policies

a) Presentation of the financial statements

The financial statements of the Fund are prepared in accordance with Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the Fund have been prepared on a going concern basis.

b) Valuation of assets

- The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as the Board of Directors of the Management Company ("the Board of Directors") may consider appropriate in such case to reflect the true value thereof.
- 2) The value of all securities and/or money market instruments which are listed or traded on an official stock exchange or traded on any other regulated market are valued on the basis of the last available prices on the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Fund are principally traded. The Board of Directors approves a provider of securities prices which supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities is determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate.
- Securities not listed or traded on a stock exchange or a regulated market are valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors.

Notes to the financial statements (continued)

as at 30th June 2022

- 4) Securities issued by open-ended investment funds are valued at their last available Net Asset Value ("NAV") or in accordance with item (2) above where such securities are listed.
- 5) The liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets are determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets are based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Valuation Day with respect to which a NAV is being determined, then the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable.
- 6) All other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

In the event that the above mentioned calculation methods are inappropriate or misleading, the Board of Directors may adjust the value of any investment or permit some other method of valuation to be used for the assets of the Fund if it considers that the circumstances justify that such adjustment or other method of valuation should be adopted to reflect more fairly the value of such investments.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by the Sub-Fund that are denominated in currencies other than the reference currency of the Sub-Fund is converted into this currency at the exchange rate prevailing on the date of purchase.
