

Web Developer (One-Time Contract)

Anticipated Dates: August - September 2022

Location: Remote - Due to logistical reasons, we welcome applications from candidates residing in the following time zones: Atlantic, Eastern, Central, Mountain, Pacific, and Alaskan time zones.

Who We Are

LUCID is writing the future of music as medicine.

We develop therapeutic music experiences to help promote mental health & wellness across various clinical indications. By unlocking the power of music and AI, we curate personalized music therapy that's backed by neuroscience.

LUCID's multidisciplinary team consists of artists, scientists, and engineers. Our respective passions and expertise unite us all at the intersection of music and mental health. We are a human-centric company with a focus on empathy and accessibility. We are currently a fully remote company based in Toronto, Canada.

Job Description

This will be a one-time contract position with the opportunity for additional future work collaboration. The ideal candidate is a creative problem solver who will work to design, develop, and maintain our next generation websites and web tools. They are an excellent communicator and are comfortable working remotely. This individual has excellent analytical skills and is confident in identifying and optimizing SEO opportunities for both desktop and mobile sites. Ideally, this candidate has experience in UX/UI design and has a strong understanding of functional user experience. Most importantly, this individual is a Webflow expert with a strong, professional understanding of its platform.

Your responsibilities as a contract Web Developer shall include, but are not limited to:

- Revise, edit, proofread & optimize web content on Webflow
- Work with cross-functionally to enhance overall user experience of our platforms

- Own various design tasks involved in the web development life cycle from start to finish
- Optimize SEO performance on our desktop and mobile websites in the backend

Qualifications

- At least 1 - 2 years of experience using HTML, CSS, JavaScript and Webflow
- A portfolio of previous work done on Webflow
- Proficiency in at least one server-side technology (Java, PHP, NodeJS, Python, Ruby)
- Ability to multi-task, organize, and prioritize work

Selection Process

To be considered for this contract position, please submit your current resume and a letter of interest highlighting your relevant work AND a design portfolio to carol@thelucidproject.ca.

Benefits

This contract role offers:

- An opportunity to contribute to our work on the development of innovative mental health products
- A remote and flexible work structure
- A high level of autonomy
- Competitive salary

Diversity and Inclusion

LUCID is committed to hearing diverse voices and providing equal opportunity to all applicants on the bases of race, ethnicity, age, gender, gender identity or expression, sexual orientation, sexual identity, disability, language, life experiences, physical characteristics, religion, belief and spirituality, thinking/learning style, or veteran status. We endeavour to foster an environment where all employees feel welcome, accepted, and have a sense of belonging.
