WORK EXPERIENCE

UX Designer

GMR Marketing – Marketing Agency

May 2021 – Present

Working with B2B/B2C clients in different industries. Projects include:

- Designed internal pages for 10,000 insurance company employees.
- Conducted a web accessibility audit for an automotive interactive fan website.

Freelance UX Designer

Self

April 2021 – Present

- Designed a website for a transit telecommunications subcontracting business.

UX Designer Consultant

Olas – Education Startup

June 2020 – August 2020

Olas' website guides students and professionals to new careers, acquire new skills and gain real experience for future roles.

- Designed a prototype of a user dashboard for members to track their job applications, badges and endorsements.
- Created a streamlined job application form that increases transparency between companies and users.
- Oversaw the design and quality assurance of the job board and job listings pages.

UX Design Consultant

Amplio.io – Fitness Tech Startup

January 2020 – April 2020

The Curae iOS app, a diagnostic tool for athletes to avoid soft tissue issues using data from thermal imaging + A.I.

- Minimized clicks by 50% in our prototype which increased the efficiency of the mobility assessment.
- Designed a dashboard that provided mobility assessment data to athletes with the use of a digital avatar.
- Conducted usability testing to refine and improve mid-fidelity prototype to address user feedback.
- Conducted user research with several athletes to determine pain points, wants and needs through user interviews.

IT Support Specialist

Oscar De La Renta, Diesel, and Ippolita - Fashion/Jewelry

January 2011 – March 2020

- Provided IT Support for hundreds of users in the corporate offices, retail stores and distribution centers.
- Created and maintained documentation IT Dept which improved service turnaround.
- Increased IT equipment retention by 70% through improved inventory management protocols.
