
how not to face. mask.

I am of the belief that the Chief Health Officers decision to mandate the wearing of face masks is an unlawful directive. As this directive appears to be in direct competition to the Charter of Human Rights and Responsibilities Act.

Can you please provide the evidence of an Override Declaration to the Charter of Human Rights and Responsibilities Act?

I am only required to follow lawful directives and without an Override Declaration to override the Charter of Human Rights I cannot in good conscience put on a face mask.

thankyou
