EMPLOYMENT HISTORY

Contract Product Designer, That Web Studio

January 2020 - Present

- Executed pixel-perfect designs and solutions
- Worked with many different teams across the globe remotely.
- Designed user-flows, lo-fi mockups, high fidelity mockups, using Figma
- Developed fully customized and advanced websites using Webflow and custom javascript code
- Managed and pieced together external integrations to create a better user experience and more functional website.
- Was client-facing and headed up design and development briefs

Contract Product Design / React Developer, V.One

March 2021 - June 2021

- Solving Complex problems in related to finding the right solutions for converting React code into native apps for our user-base when they use our drag and drop web builder
- Working with React, React Native, and Node.JS
- Building the future of No-Code SAAS products.
- Working with team members from around the world

UX Designer and Project Manager, Incredible Marketing

June 2020 2020 - December 2020

- Worked in collaboration with Project Managers, Developers, and Designers.
- Oversaw visual display plans and managed teams creating those plans
- Adhered to industry best practices, leading to greater successes.

Contract Mid-Level UX/UI Designer, Adapt

September 2019 - December 2019

- I translated the vision and user requirements into wireframes and user interfaces to make the overall experience of the app relational in a beautiful and simplistic way.
- I evaluated user requirements in collaboration with PM's and engineers
- I designed the mobile application (both iOS/Android) and made the brand pages more user friendly.
