

Cleanpure Hand Sanitiser

Eliminate
SARS-CoV-2
virus in 15 sec!

The active substance in our product, is produced only of water and salt through electrolysis. The same substance is produced in our bodies by our immune system to fight virus and bacteria. The product reacts instantly to all organic substances, viruses and bacteria are eliminated through oxidation.

Cleanpure stands for natural ingredients without any alcohol, solvents, preservatives or colouring. This combination makes our products so highly effective and at the same time so harmless for our body and our environment.

- **Without any alcohol**, solvents, preservatives or colouring
- Kills 99.99% of bacteria, viruses and fungi, including Norovirus and Calici (winter vomiting disease), Rotavirus, Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa and E-coli
- Eliminates enveloped viruses, including SARS-CoV-2 (Covid 19) and influenza **within 15 seconds**
- pH neutral, gentle and does not dry out skin
- Dermatest® rating "Excellent"
- No risk to develop resistance
- No toxic residues
- Certified and tested according to EN14476 and EN1500

Cleanpure Hand Sanitizer is suitable whenever an effective, fast and gentle disinfection is needed.
