SILVER & PRICING

NOW LET'S TALK ABOUT PURE COLLOIDAL SILVER. WHY IS OUR COLLOIDAL SILVER DIFFERENT/BETTER?

NeutraBac pH uses a true colloidal silver mineral supplement with the highest particle surface area ever tested for maximum effectiveness. Our silver is 0.9999 pure silver in colloidal form, which is classified as a "true silver colloid".

So what makes it different?

- Smallest Silver Nanoparticles
- Highest Particle Surface Area Ever Measured
- Delivers Maximum Effectiveness
- Highest Nanoparticle Concentration. Concentration is 20ppm
- Highest Bioavailability of any Colloidal Silver Product due to sub-nanometer sized particles
- Particle size controls the surface area and therefore the effectiveness of the colloidal silver suspension
- Made using the highest purity, sterile pharmaceutical-grade deionized water
- The biggest kept secret to Pure Colloidal Silver which we have over our competition is the actual color of it...and our lips are sealed!

So what does all this mean? In the world of Colloidal Silver, particle surface area is the property of a colloid that directly determines its ability to react in its environment. Therefore, the effectiveness of colloidal silver is determined by Particle Surface Area. The higher the Particle Surface Area, the more effective the Colloidal silver will be and perform inside your Equine athlete. Colloid Particle Surface Area increases as the particle size decreases. The highest Particle Surface Area is achieved when there is a high concentration of nanometer or sub-nanometer sized particles.

Other companies selling silver type products will advertise very high values of silver concentration with the explanation that higher ppm concentrations are more effective but that is simply not true. Research does not support this argument.

NEUTRABAC pH SILVER combines the smallest nanometer size particles and the highest particle concentration, a powerful combination of properties, to produce a colloidal silver product that has the highest Particle Surface Area of any colloidal silver product ever tested ... guaranteed!
