# History of ILC

ILC is a group of UK language schools situated in Birmingham, Bristol, Cambridge, Colchester, Portsmouth and Southampton. It brings together Colchester English Study Centre (CESC), TEG English and ABC Cambridge under a new name.

ILC's management and staff have a great deal of experience in customer service and organising successful courses, accommodation, and leisure programmes. We have great residential and non-residential summer schools, flexible year-round young learner mini-break programmes, and a strong General English and academic pathway program.

# LEARNING

## Teaching Methodology

- Classes at ILC may be very different to those in your own country. We focus on you, the learner, and your ability to communicate both in class and in the outside world. This means all our students are encouraged to participate as much as possible in the learning process. You may also find that classes are much more interactive and faster paced than traditional classes so that students are inspired and our lessons enjoyable.

## YOUR LEVEL

- At ILC, we check your progress throughout your course, so you can see how much you are improving. Teachers will monitor your work during class with spelling or vocabulary tests, progress tests and end of course exams. These will help both you and your teacher to evaluate your strengths and weaknesses and allow us to advise you on any future courses or learning strategies you could use to improve.

## CONSTANTLY IMPROVING

- We are always trying to improve our student experience. Your feedback is vital for us to check the quality of our courses, activity programme and accommodation. We take all feedback seriously and do our best to address issues as soon as they appear.

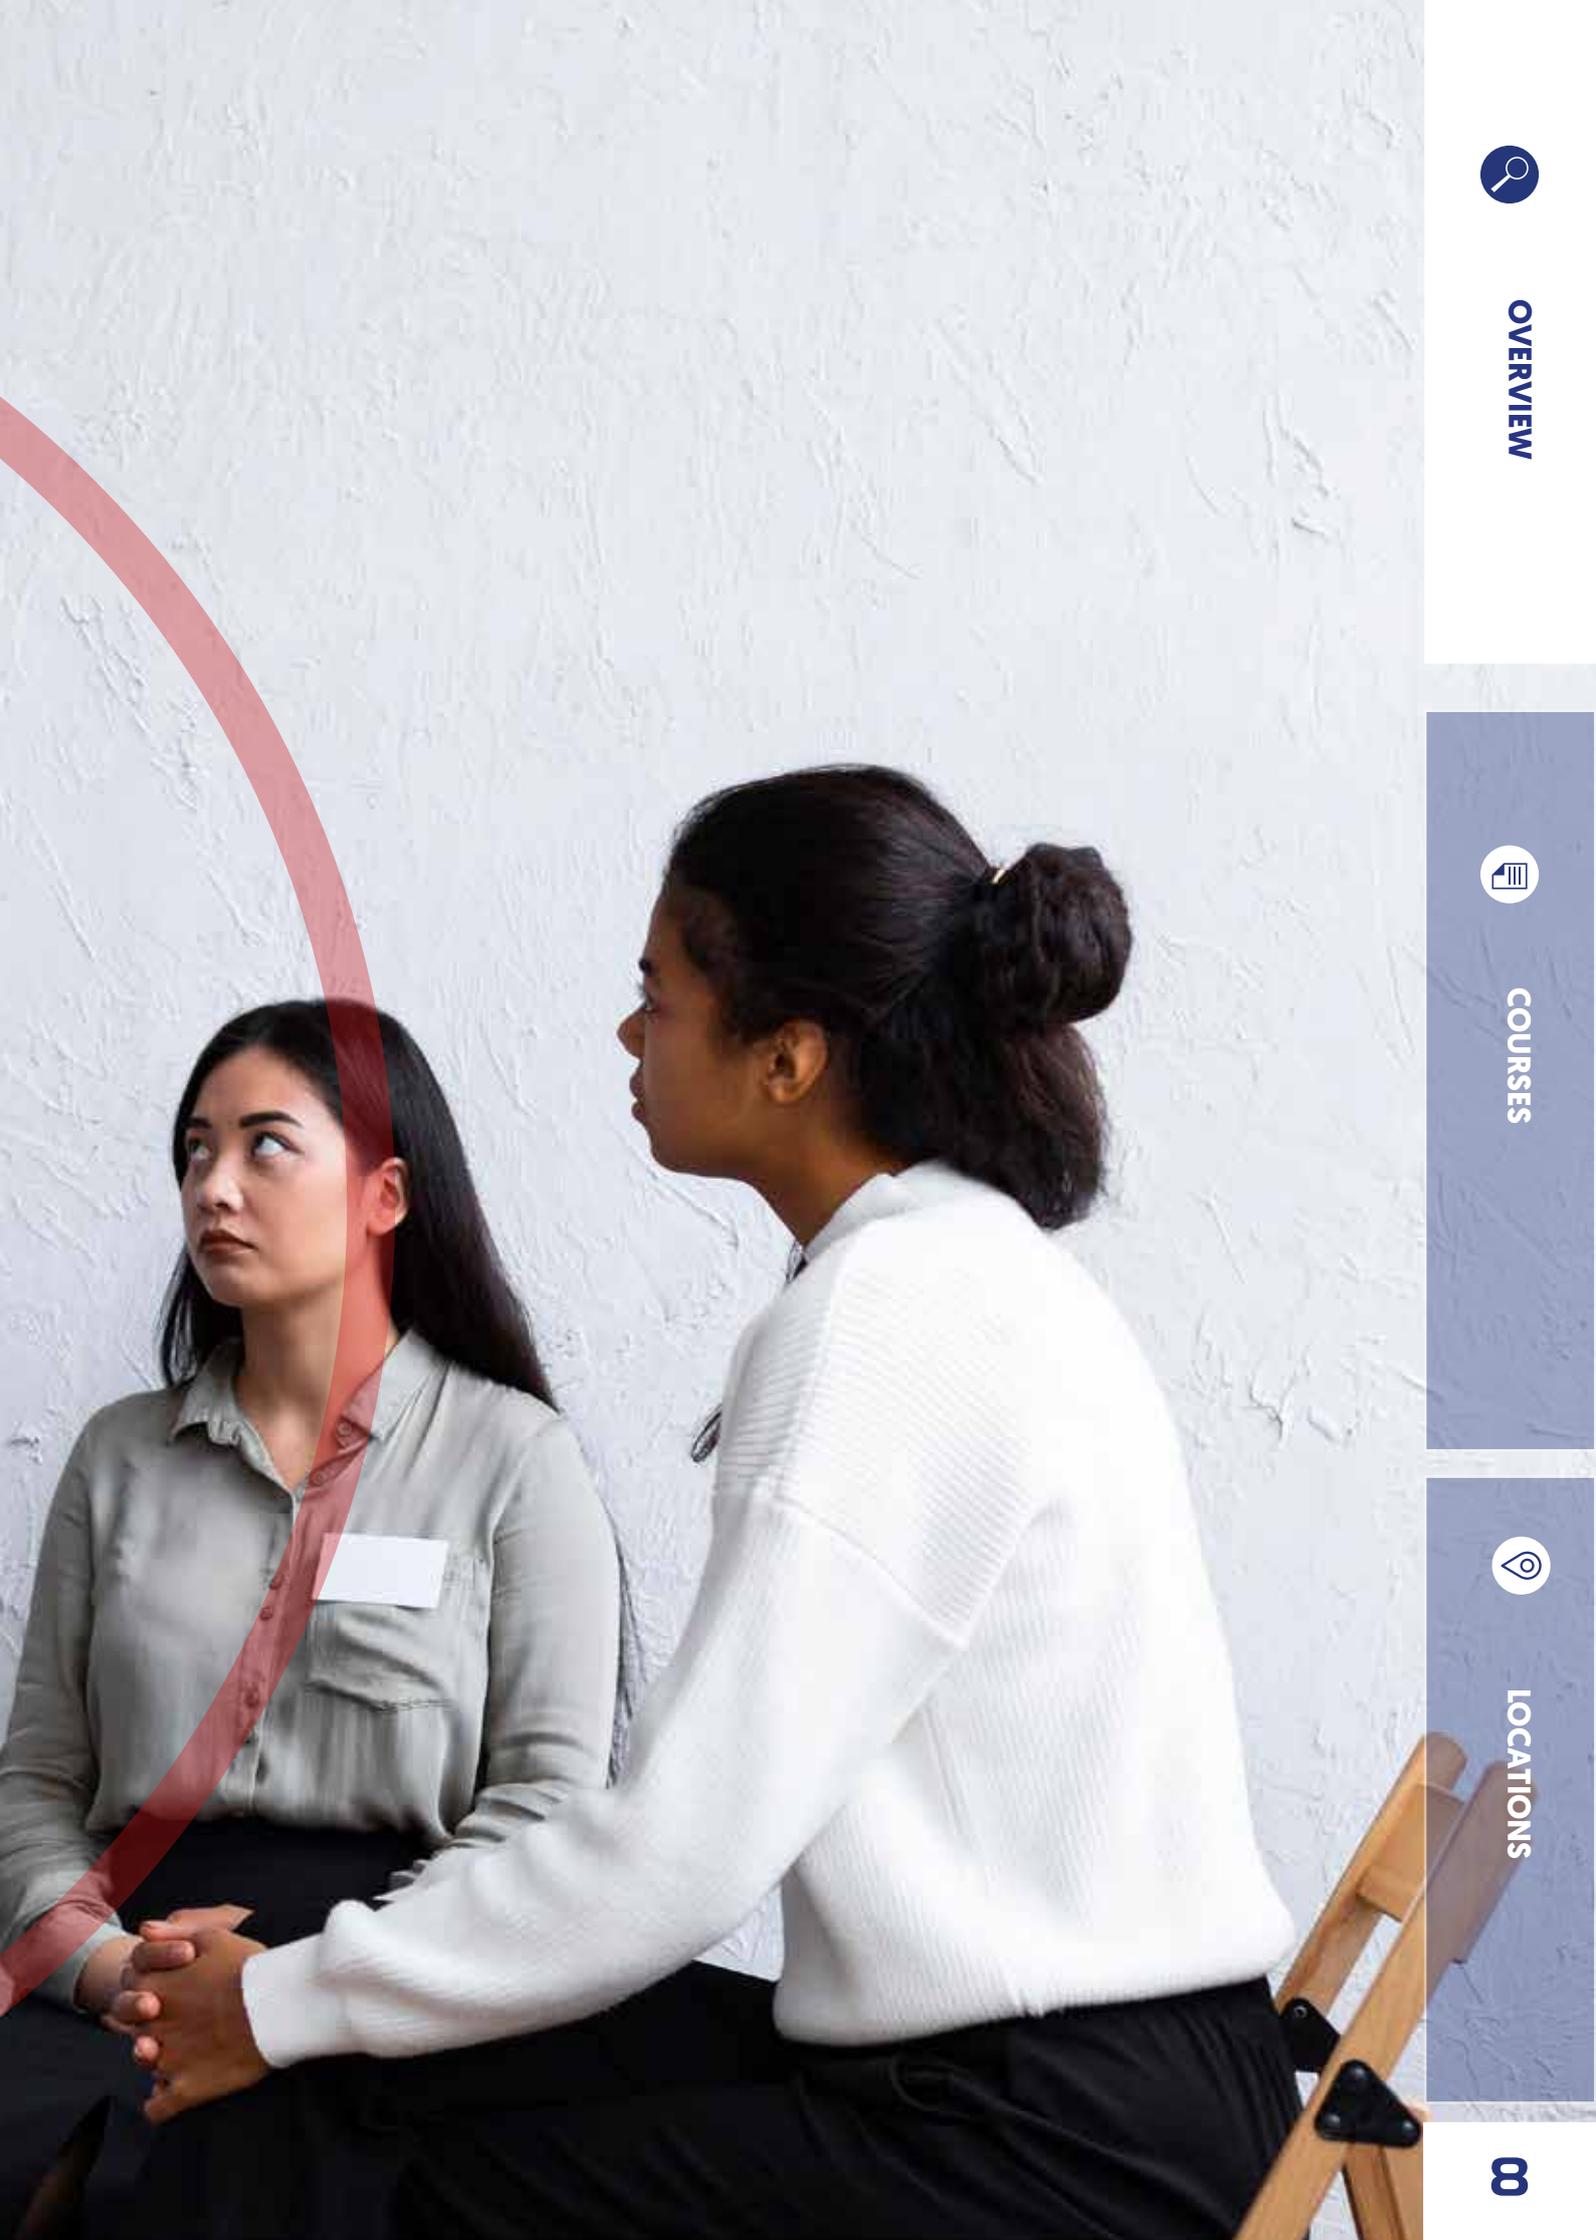

A young woman with long brown hair, wearing a grey knit sweater and blue jeans, stands in the center of a classroom. She is gesturing with her right hand as if speaking. To her left, a young man with brown hair, wearing a light blue button-down shirt, is seated and looking towards her. Another student is partially visible on the far left. The background is a plain, light-colored wall. A large, semi-transparent red circle is overlaid on the image, framing the scene.

# A world inside the classroom

ILC classes are designed to help you communicate much better in English and get useful skills. Our teachers aim to inspire you with lessons about the world around you.

We also care about your individual learner needs so that you can benefit a lot from studying with us. We want you to be successful and aim to help you achieve your goals.

# Student Testimonials

Hi! I'm Alice, I come from Italy and I was a student at ILC in autumn 2016. I would highly recommend this school to everyone who wants to learn or improve their knowledge of the English language. I attended the IELTS class, as my goal was to achieve at least a 7 in each component of the exam, in order to apply for a Ph.D. in Psychology.

**Mrs. Zaniolo, Italy**

My time at ILC Bristol was very interesting. At first, I thought that 1 week, which is how long I studied for, might not be enough. But if you want to improve your English and your skills, you can learn so much here, even in 1 week! Here at ILC, you meet new people from different countries, make friends and have a great time. Everybody should have this experience!

**Mr. Basile, Switzerland**

““  
ILC not only gives you the opportunity to improve English, but its social programme allows you to put into practice what you learnt. ILC is the most beautiful experience I have done in my life. Here you feel at home thanks to the staff who is always available to help.

**Mrs. Ornella, Italy**””

““  
This is better than I expected. I really love the way the teachers teach, and the school events are brilliant.

**Mr. Dayadi, Indonesia**””

““  
My favorite thing about the classes is all the things. It is very interesting thing for me as I am learning new words, new vocabulary. Yeah, it's very good having enjoyment. I would recommend the college to my friends because the people are very nice and there are good facilities with a positive atmosphere.

With over thirty years' experience of organising courses for Young Learners, International Language Holidays (ILH) guarantees a safe and supervised learning environment in various location of UK. The ILH team care for students by supervising learning, activities and excursions to provide them with an enjoyable, safe and relaxed English language holiday. ILH programme provides short, intensive summer courses and the courses are designed to maximise students' understanding of English and increase their confidence in using it.

Every year we have Summer Schools in various locations of England. There are both residential and Homestay options. The students are aged from 5 -17 and come for a minimum of a week. In the mornings, they are in international classes learning English and having fun. There is a strong emphasis on project work, developing independence and using English to present and entertain. In the afternoons, evenings and at the weekends, there is a wide range of activities, sports, and trips so that this really is a holiday as well as a learning experience.

# Groups & Mini-stay

---

We provide courses for groups of young people (aged 11-17) who come to the UK for a one or two week break. These students stay in Homestays, have language lessons in the morning and do a range of fun activities and trips in the afternoons.

The students get a lot of opportunities to practise their English with different people throughout the day. In class, there is a lot of group-work, communication and using technology to inspire and engage the students. We manage these courses very flexibly so that, for example, if you want your children to do an activity or go out together in the evening, this can be arranged.
