

## TO WHOM IT MAY CONCERN

### NOTICE: IMPORTANT MESSAGE

- Batteries are not (fully) charged.
- Please connect the battery to the corresponding charger, and before use, first charge the battery. Do not use the battery before it is fully charged.
- If any damage occur to battery, please bring battery to authorized party to handle and ship damaged batteries.
- In any case, if you want to ship this battery, please take into account local rules for shipping Lithium batteries. Because they are seen as dangerous goods. This battery is appointed as UN3480 Class 9 goods. Proper packaging/labelling and shipping-way is important.
- In case unexpected things happen with battery which is unlikely (i.e. burning battery) please put battery for at least 48 hours in water and dispose battery afterwards to appropriate waste processor.
