

PRODUCT MANAGER

If you think you are a Product Manager that can help us create the best DeFi product experiences, we want to hear from you.

The ideal candidate is user-obsessed and is dedicated to bringing the voice of our users to every table and empowering our organization to solve our customers' problems. Develops products by identifying potential products; conducting market research; generating product requirements; determining specifications, production timetables, pricing, and time-integrated plans for product introduction; developing marketing strategies.

Responsibilities

- Define and drive product strategy, vision, and roadmap evangelizing to all teams, partners, and users of our products
- Work cross-functionally with designers, engineers, and other internal team members to launch and scale our products
- Write detailed user stories, identify edge cases, and work with the engineering team to roll out features in a fast-paced, actionable environment
- Determines user needs and desires by specifying the research needed to obtain market information
- Recommends the nature and scope of present and future product lines by reviewing product specifications and requirements; appraising new product ideas and/or product or packaging changes

Required Skills

- 4+ years of product management experience, preferably in cryptocurrency and blockchain companies
- Deep understanding and/or a user of DeFi products (mandatory)
- Technical background and ability to evaluate the technological strengths and weakness of third party solutions
- An entrepreneurial mindset with the ability to succeed in a fast-paced environment
- Sincere empathy for the user and a commitment to delving deep into the challenges they present or experience

Benefits

- 100% remote & flexible hours
- Growing challenging environment
- Learning possibilities (conferences, meetups, courses, etc.)
- Additional equipment
- Paid days off
