

Senior Frontend Developer [DeFi]

Full time remote position

We are looking for a passionate frontend developer with solid experience and no fear of learning new things. Are you a frontend magician? Do you “speak” blockchain technology? Are you a quick learner when it comes to new technologies, frameworks, or libraries? Do you want to work with the latest technologies used in the blockchain world? If you answered yes to most of the questions then we are looking forward to working with you.

Responsibilities

- Implement full fledged performant web3 apps with beautiful designs
- Integrate your own UI/UX improvements to incentivize the users to use the platform
- Work with the state of the art developer stack
- Feeling strong about your code
- Understand the flow of the assets from the smart contracts' perspective

Requirements & skills

- 5+ years of programming experience
- Experience working in DeFi frontend development - understand the flow of the web3 application
- Understand the interaction between frontend and solidity contracts
- Advanced knowledge of next.js (React) or nuxt.js (Vue)
- Advanced knowledge of Ethers.js (web3)
- Typescript
- Written and spoken communication skills in English for professional environment

Nice to have:

- Experience with Material UI framework
- Experience with Solidity

Benefits

- 100% remote & flexible hours
- Growing challenging environment
- Learning possibilities (conferences, meetups, courses, etc.)
- Additional equipment
- Paid days off
