

PPE Inventory Manager

REIMAGINING FACILITY COMPLIANCE

The PPE Inventory Manager tool allows you to track inbound and distributed inventory from any device. Whether you are out in the field or at your desk, our robust platform tracks your PPE inventory and contacts distribution departments through automatic notifications. Our reporting metrics quickly analyze the complete history of distributions and efficiently make adjustments to your process. We understand that during a crisis, time is your most valuable resource. Be prepared & streamline your entire process with this application right at your fingertips!
