

Eg. If someone uses \$100 of BUSD to buy BUST, we take 2% of the BUSD (\$2) and 2% of the BUST. The buyer ends up with \$96 worth of BUST. The remaining \$2 of BUSD and \$2 of BUST is sent to the Swap Fee Manager.

These funds can be used to perpetually increase the Game Bankroll and for other functions as voted on by the DAO.

LEGEND (Who benefits?)

- Direct income to the BUSTaBNB ecosystem to be used by the DAO (BUST holders).
- Rewards for affiliate link providers.
- Buyback and burn increases buy pressure and reduces supply. LP Acquisition and lockup reduces supply and adds trading liquidity.
- Increases winnings via iGaming platform Bankroll pool.
- More rewards for people staking Partner Tokens in the Bankroll.
- These percentages are adjustable via a DAO proposal & vote.
