

we're
committed to
100% renewable
electricity

This is to certify that

Wow Workspaces Ltd

is being powered by 100% certified renewable
electricity from Good Energy

All of Good Energy's electricity is 100% REGO backed from local natural sources such as sun, wind and water.

Good Energy works closely with its community of over 1400 independent generators across the UK to ensure the power it provides is as clean and green as possible.

In line with World Resource Institute GHG Protocol, carbon emissions associated with this power can be counted as zero in any voluntary reporting.

Good Energy is audited by SGS UK under these terms.
