

BASELINE (KPC) SURVEY RESULTS

2020

**COME
UNITY**

About Us

- **COME UNITY is a non-profit organization that addresses the complex issues of chronic poverty that have adversely impacted East African communities for generations.**
- **We are a development organization committed to building long-lasting, transparent relationships with local leaders, who guide our conversations and shape the vision for how to best see their communities out of poverty.**
- **We work to develop long term strategies that alleviate chronic poverty and foster sustainable change.**

Approach

Basic Needs

Education

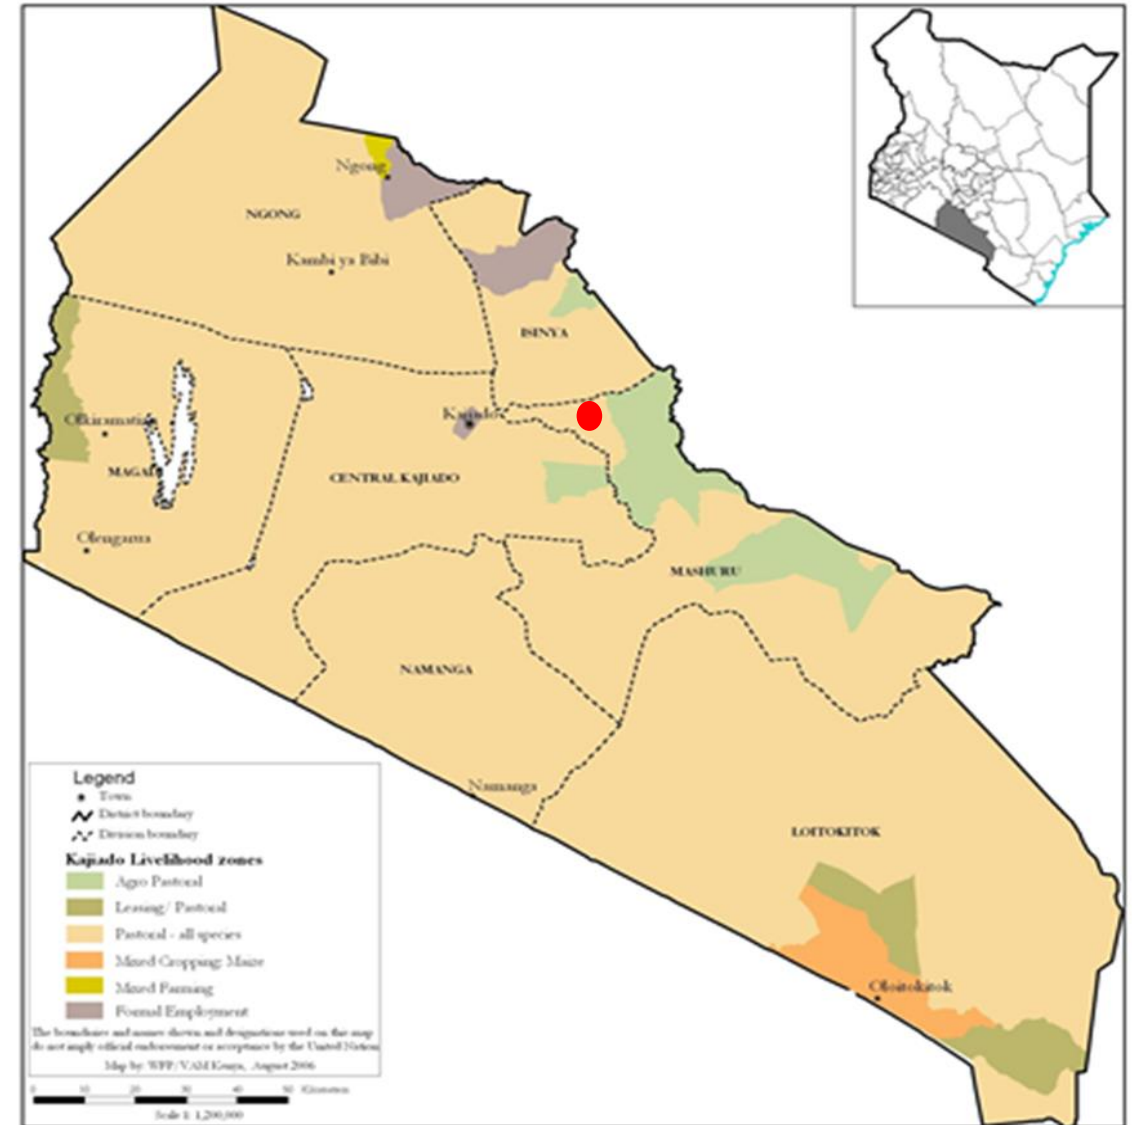

Sustainability

Background Information

- ✓ **Kajiado County covers an approximate area of 21,871 square kilometers.**
- ✓ **Estimated population is 1,117,840 people (KNBS 2019).**
- ✓ **It is administratively divided into five sub counties namely: Kajiado Central, Kajiado North, Kajiado South, Kajiado East and Kajiado West.**
- ✓ **There are three main livelihood zones namely; pastoral all species (52%), Agro-pastoral (31%) and mixed farming (12%) livelihood zones.**
- ✓ **The survey was conducted in Kajiado Central, Sajiloni location in Inkuseron and Elerai villages -Come Unity operational areas.**

Kajiado County Livelihood Zones

Baseline Aim and Objectives

To take a first measurement of the major long-term indicators for success of the program *(Measure people's knowledge, gather information on their practices and the degree to which they are reached by services).*

Specific objectives:

- **To set benchmarks against which programme impact can be monitored and evaluated.**
- **To validate and strengthen programme targeting and technical approaches.**
- **To strengthen understanding of existing needs/ opportunities.**

Methodology

Survey Design

- ✓ **This was a cross sectional descriptive design with quantitative data collection method.**
- ✓ **The survey applied a LQAS sampling (*Five Supervision areas*).**

Survey Area

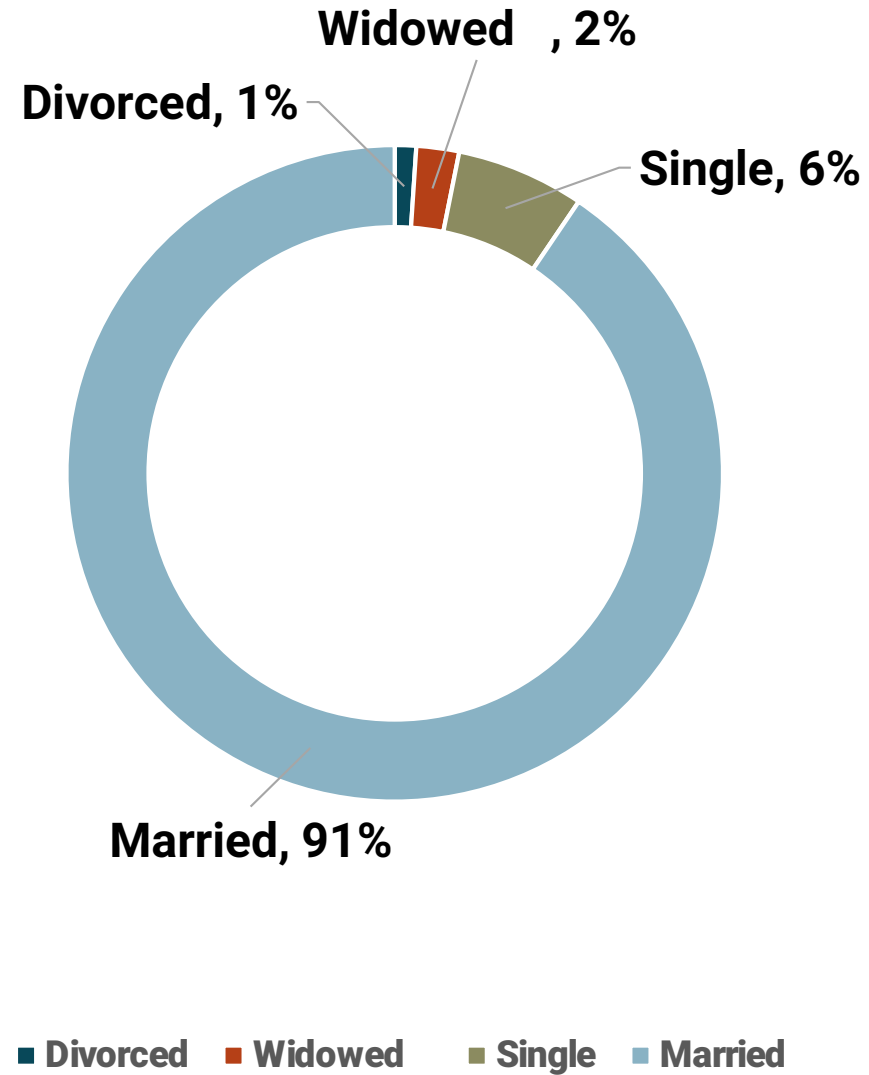

- ✓ **This survey was implemented in Inkuseron and Elerai villages**

Study Population

- ✓ **Mothers/primary caregivers of children aged between 0 and 18 years.**

SURVEY RESULTS

Marital Status

Sex of respondents

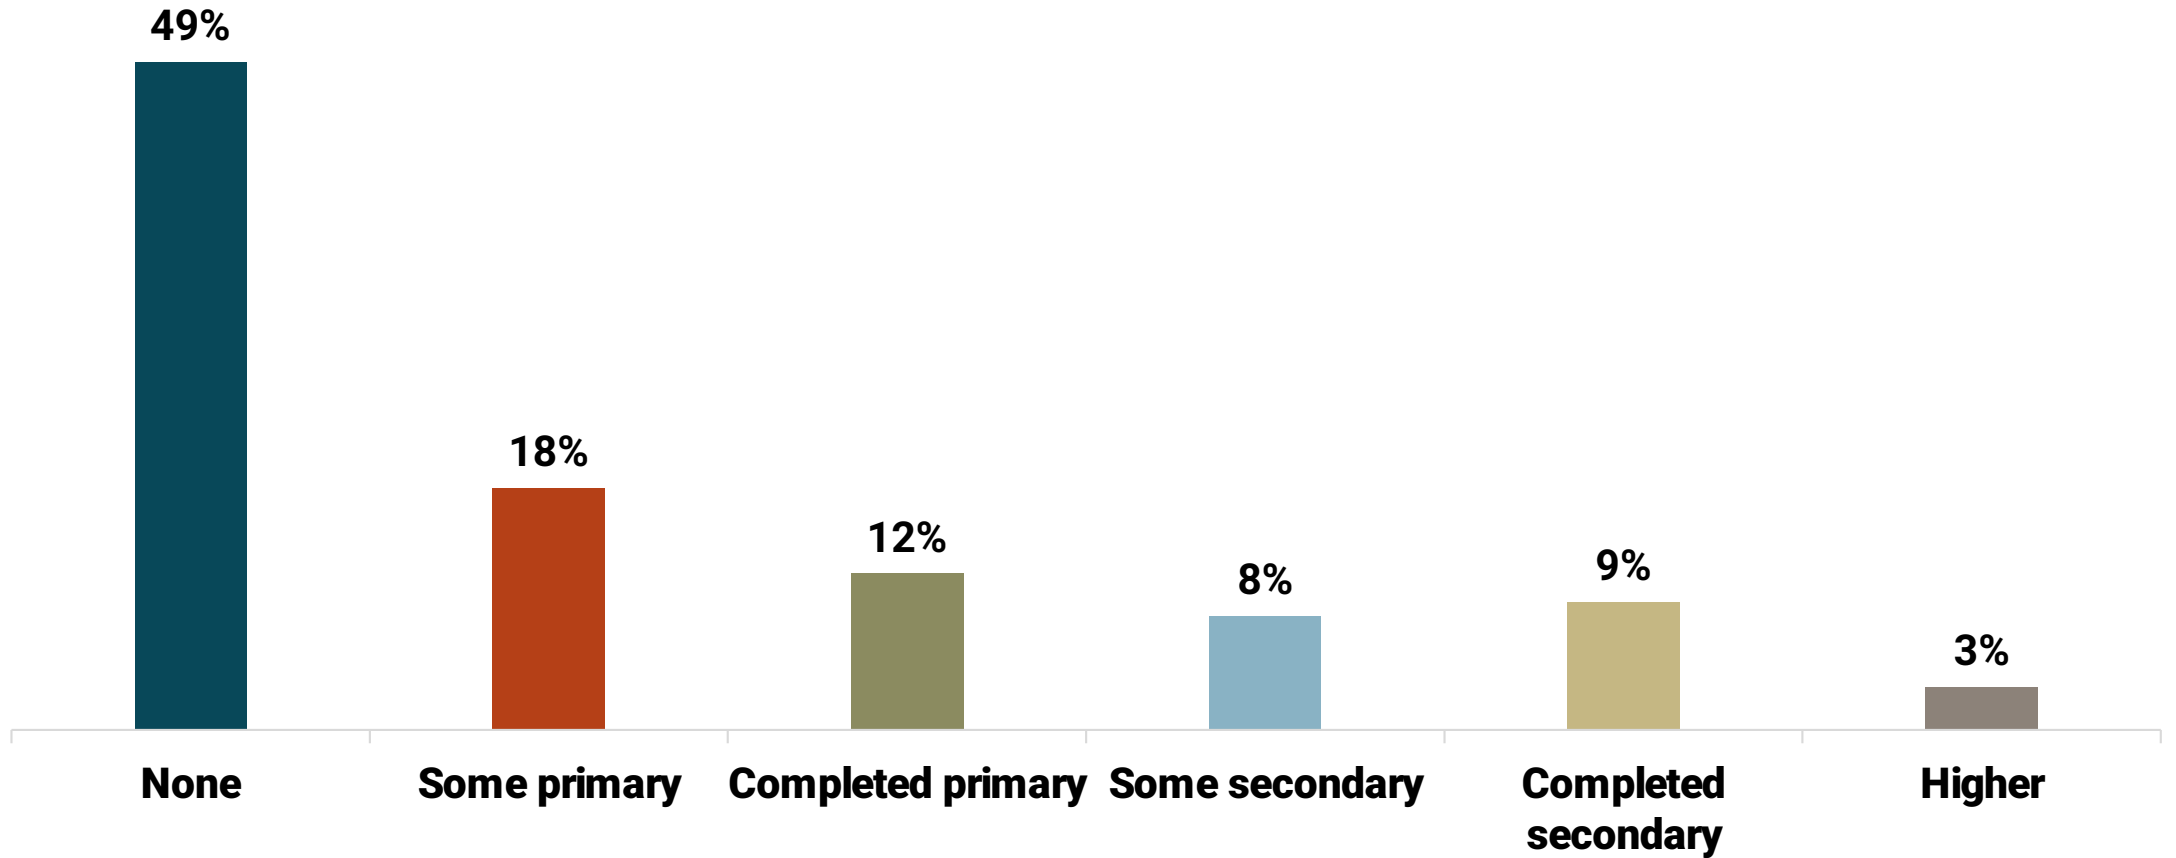

92%

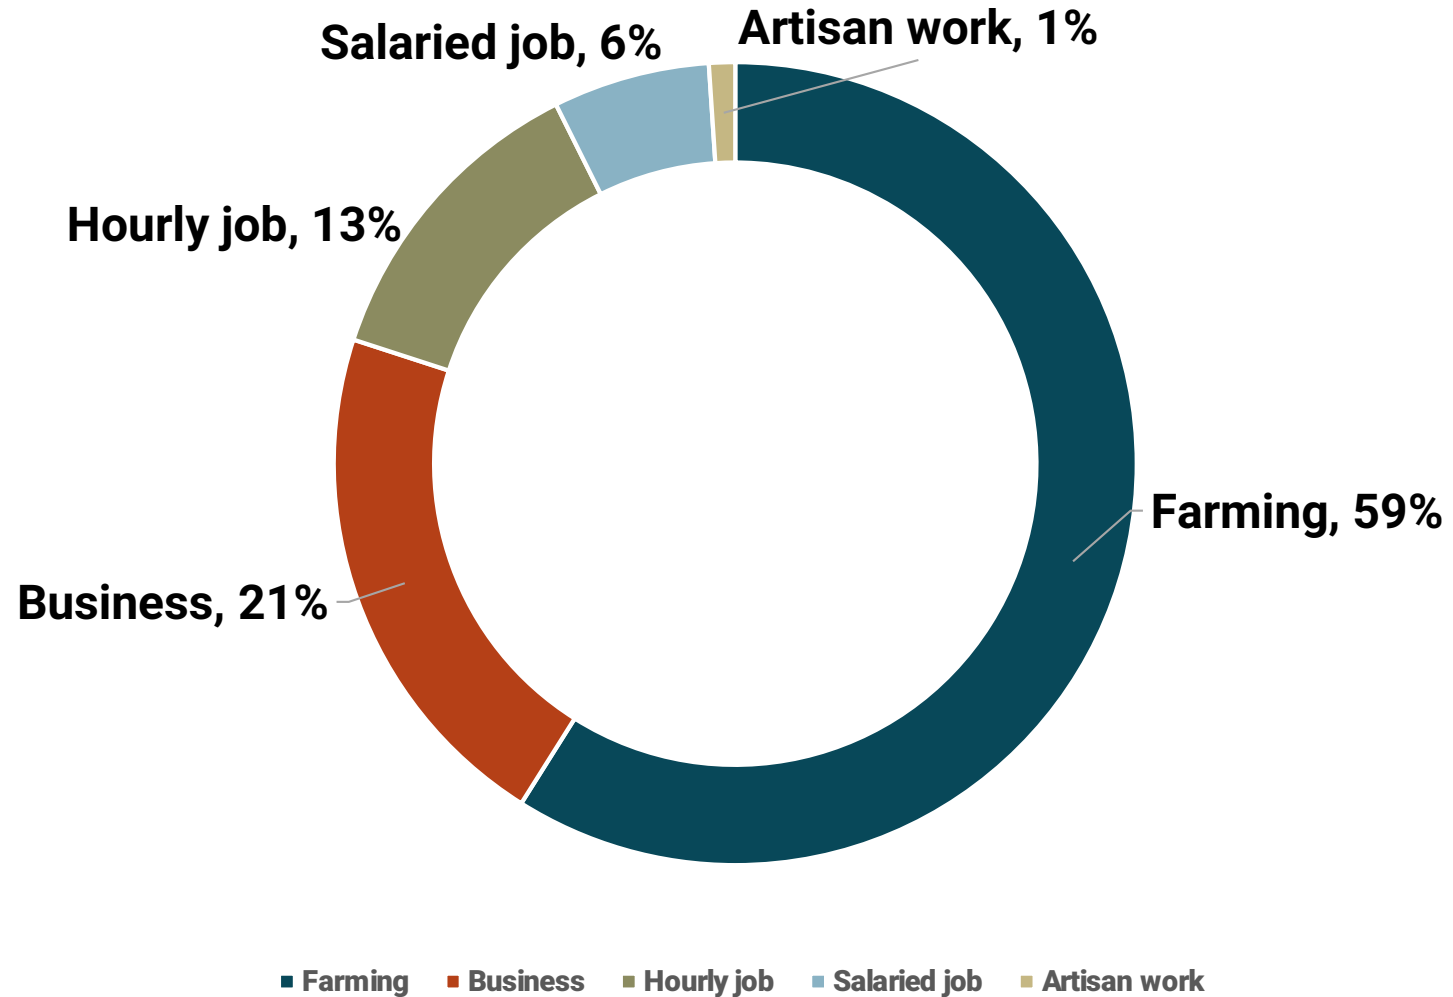

8%

Highest grade level completed

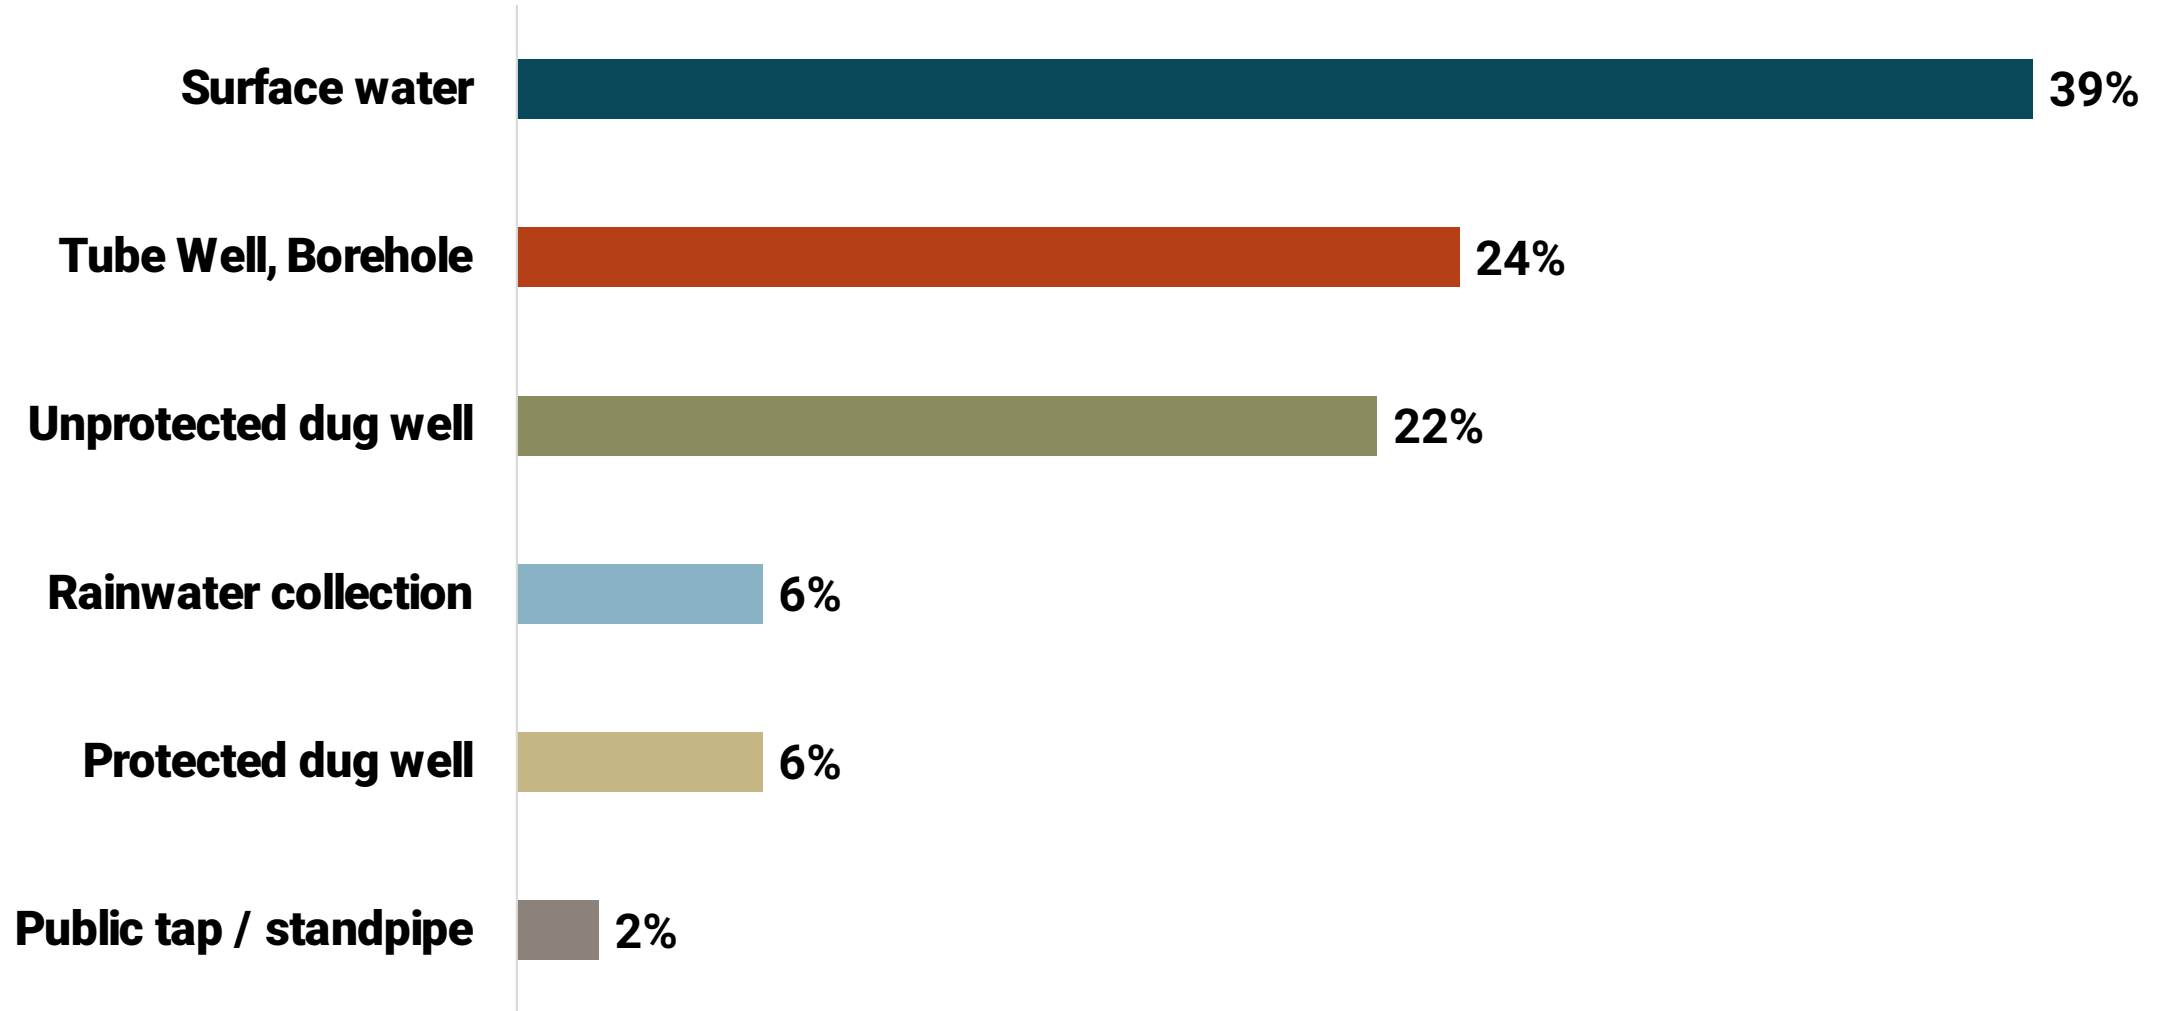

Main source of income for the household

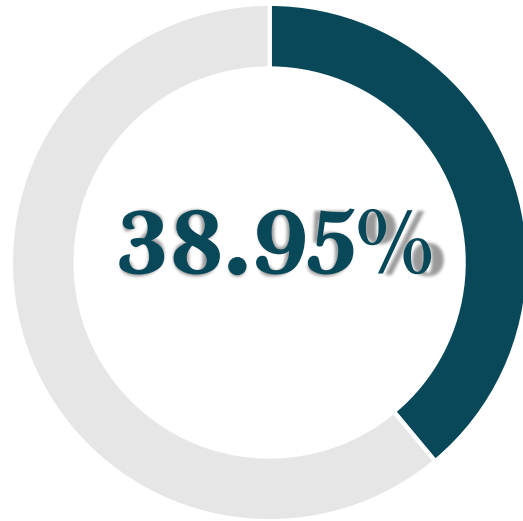

WATER, SANITATION AND HYGIENE

Main source of drinking water

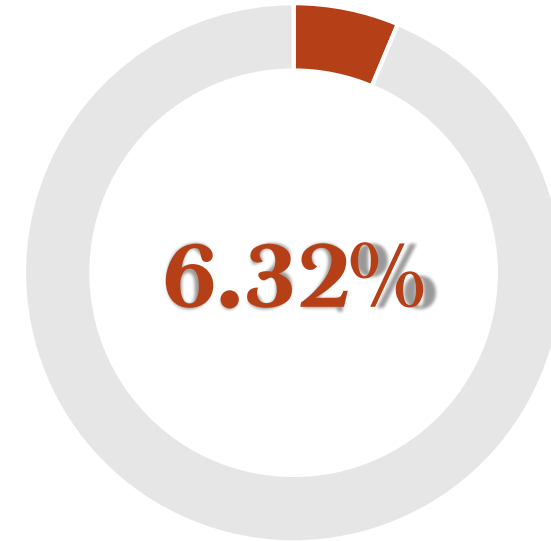

Coverage by an improved source for drinking water

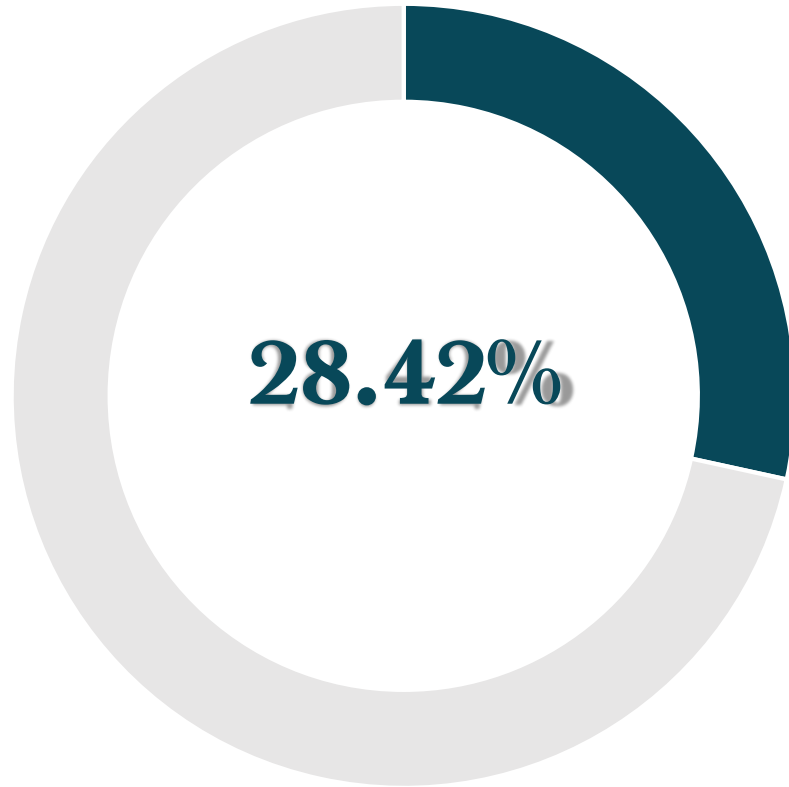

Percentage of households using an improved source for drinking water

Access to an improved source for drinking water

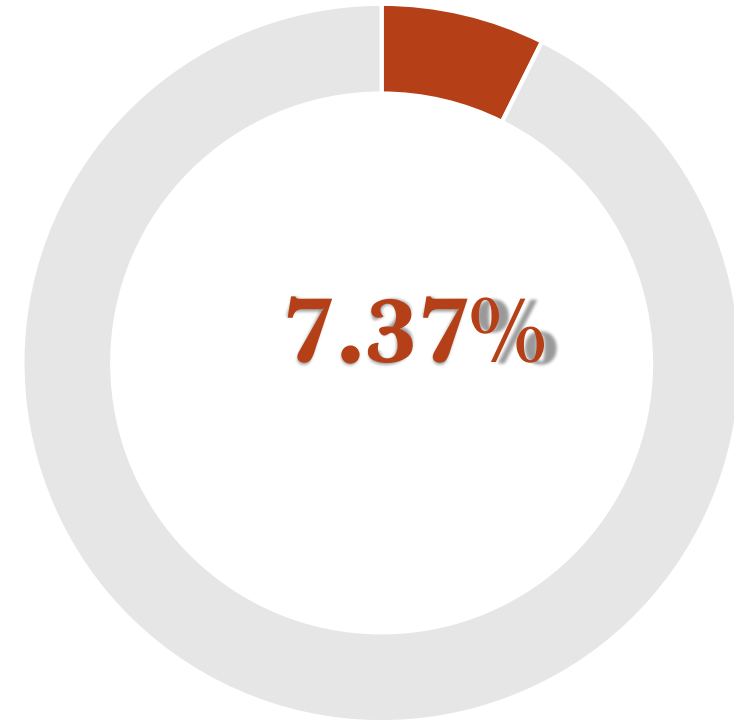

Percentage of households using an improved source for drinking water within acceptable reach (*water that is either on the premises or within 30 minutes of household*)
