Open trppn-tools.net and navigate to the venue you want to connect your TrppnBot with. Press edit and fill in your Bot-ID.

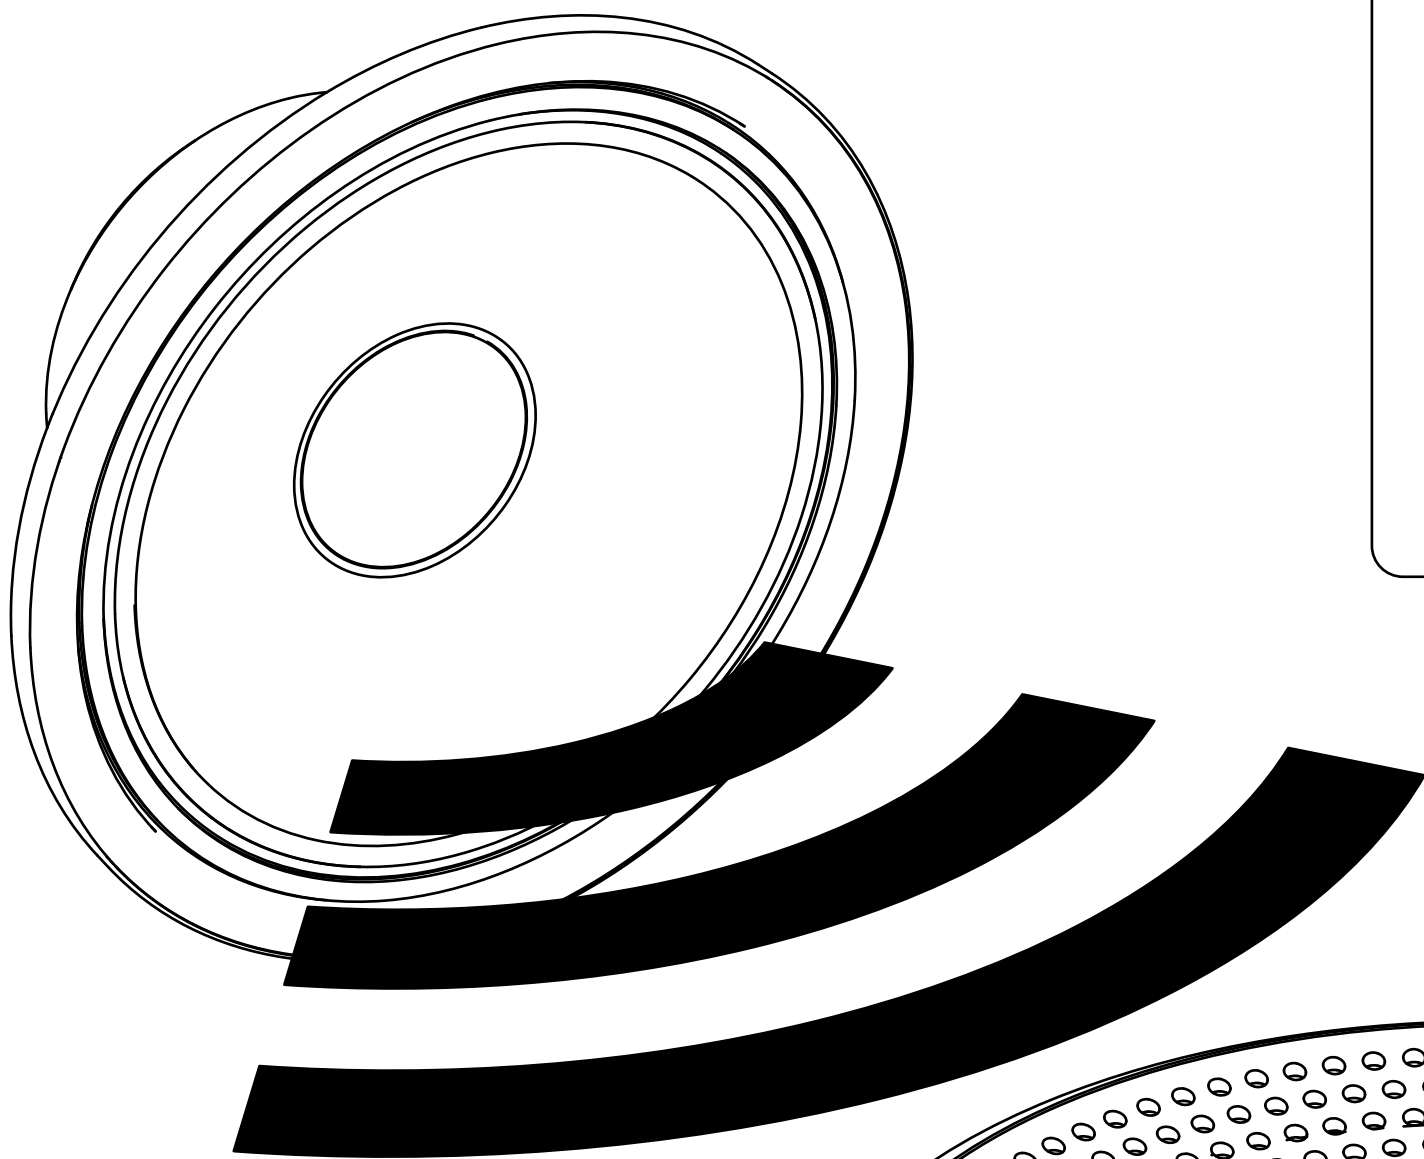

# **MUSIC RECOGNITION SETUP**

**General**

**MUSIC RECOGNITION**

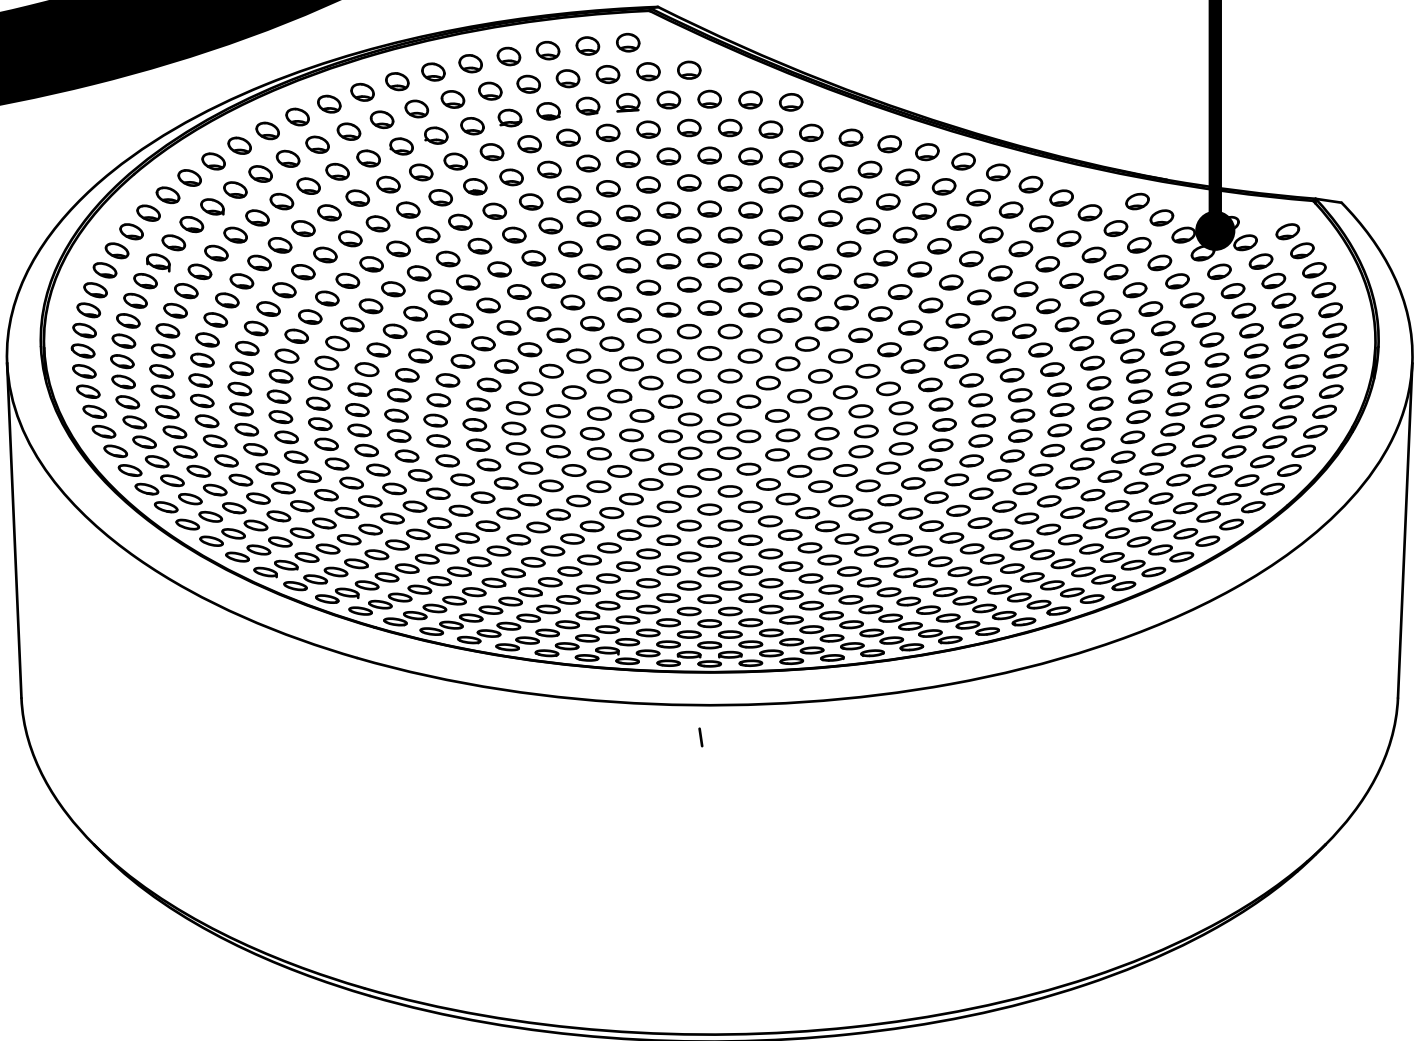

The Trppn Bot recognizes which artist, title and genre is playing. This real time information and a listen in function will be shared on the Trppn App.

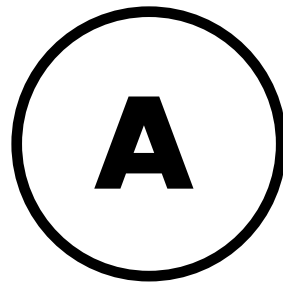

**RECENTLY PLAYED**

 Listen in

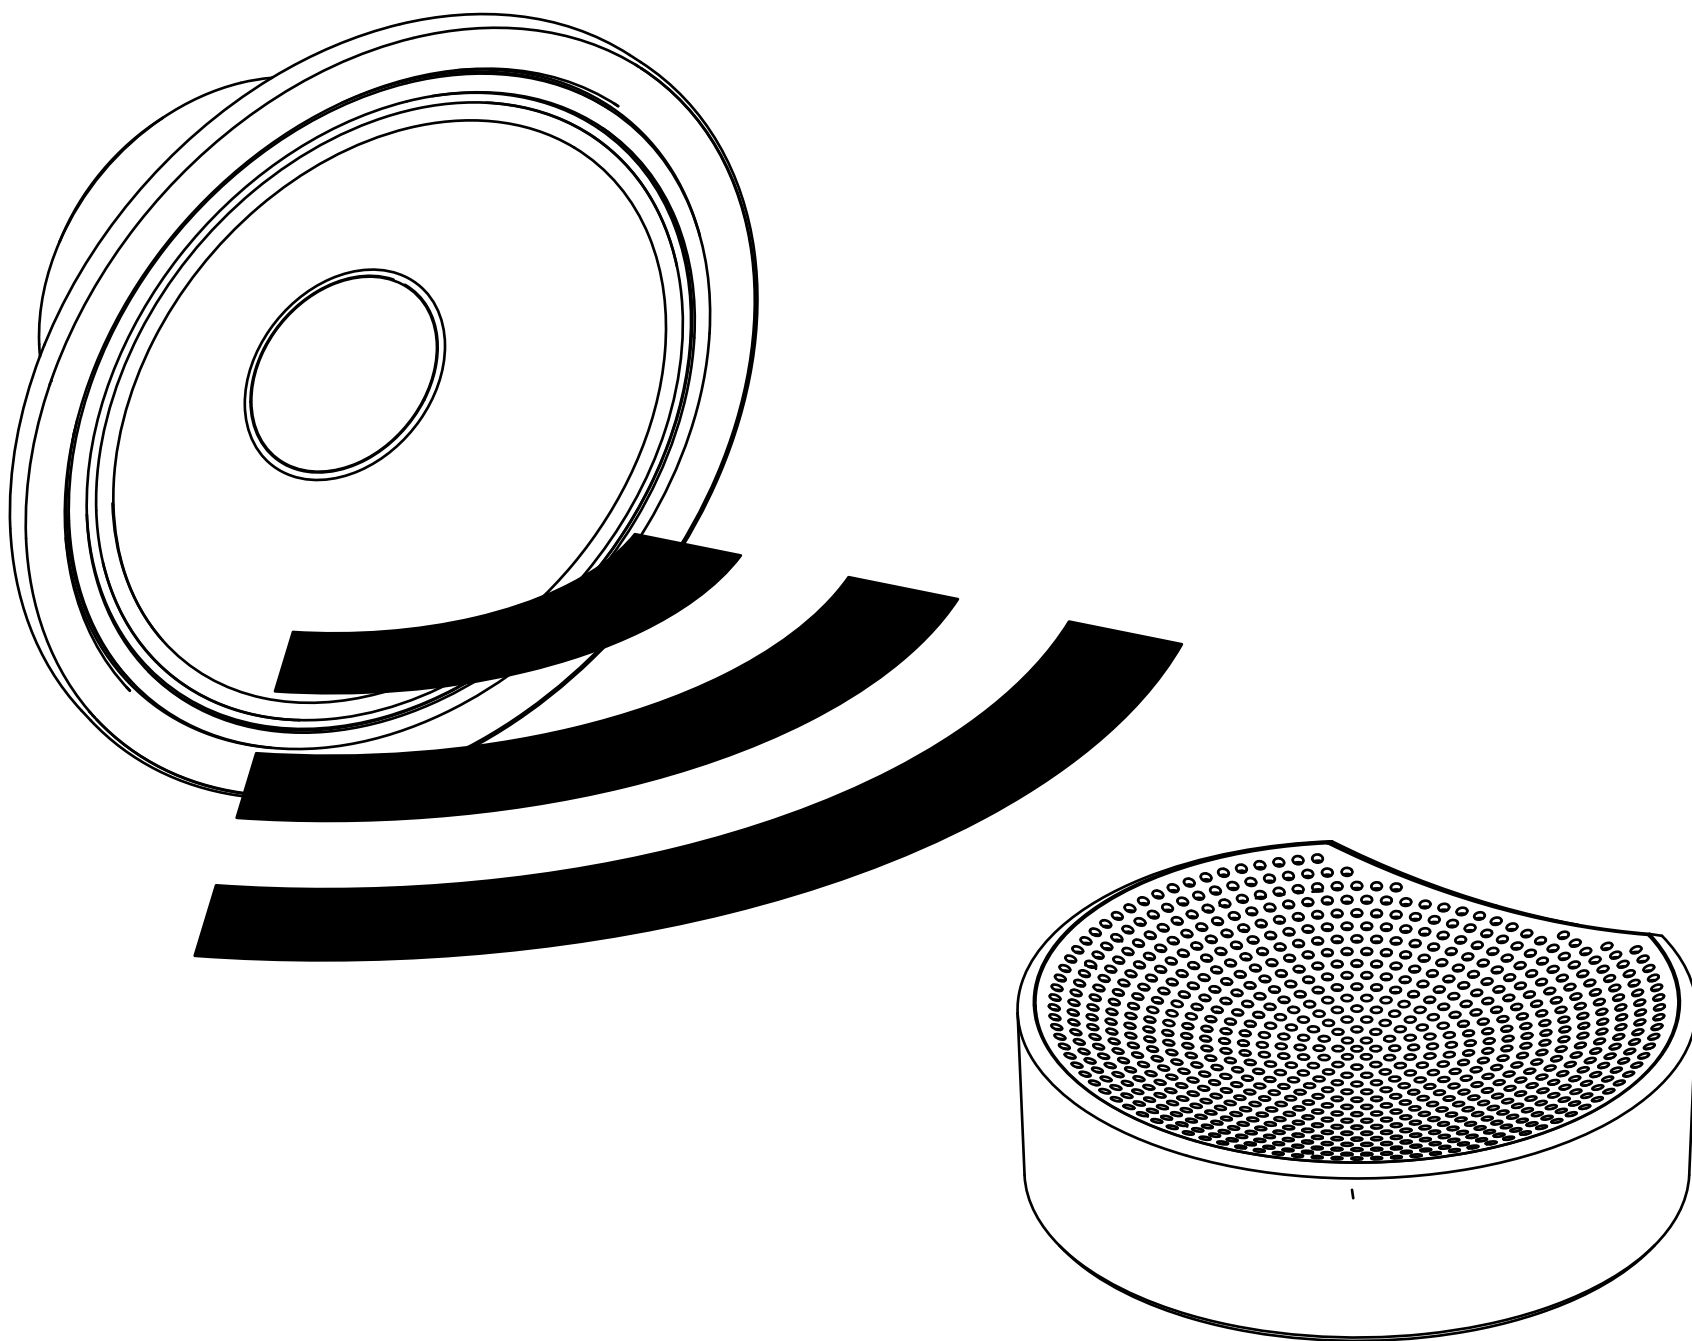

**Fingers Of God - When The Ground**  
**David Raddish - Patch 5**  
**Mala Herba - Kupaly**  
**Enpal - Mich**  
**Fauna - Lonely At The Top**

# MICROPHONE MUSIC RECOGNITION

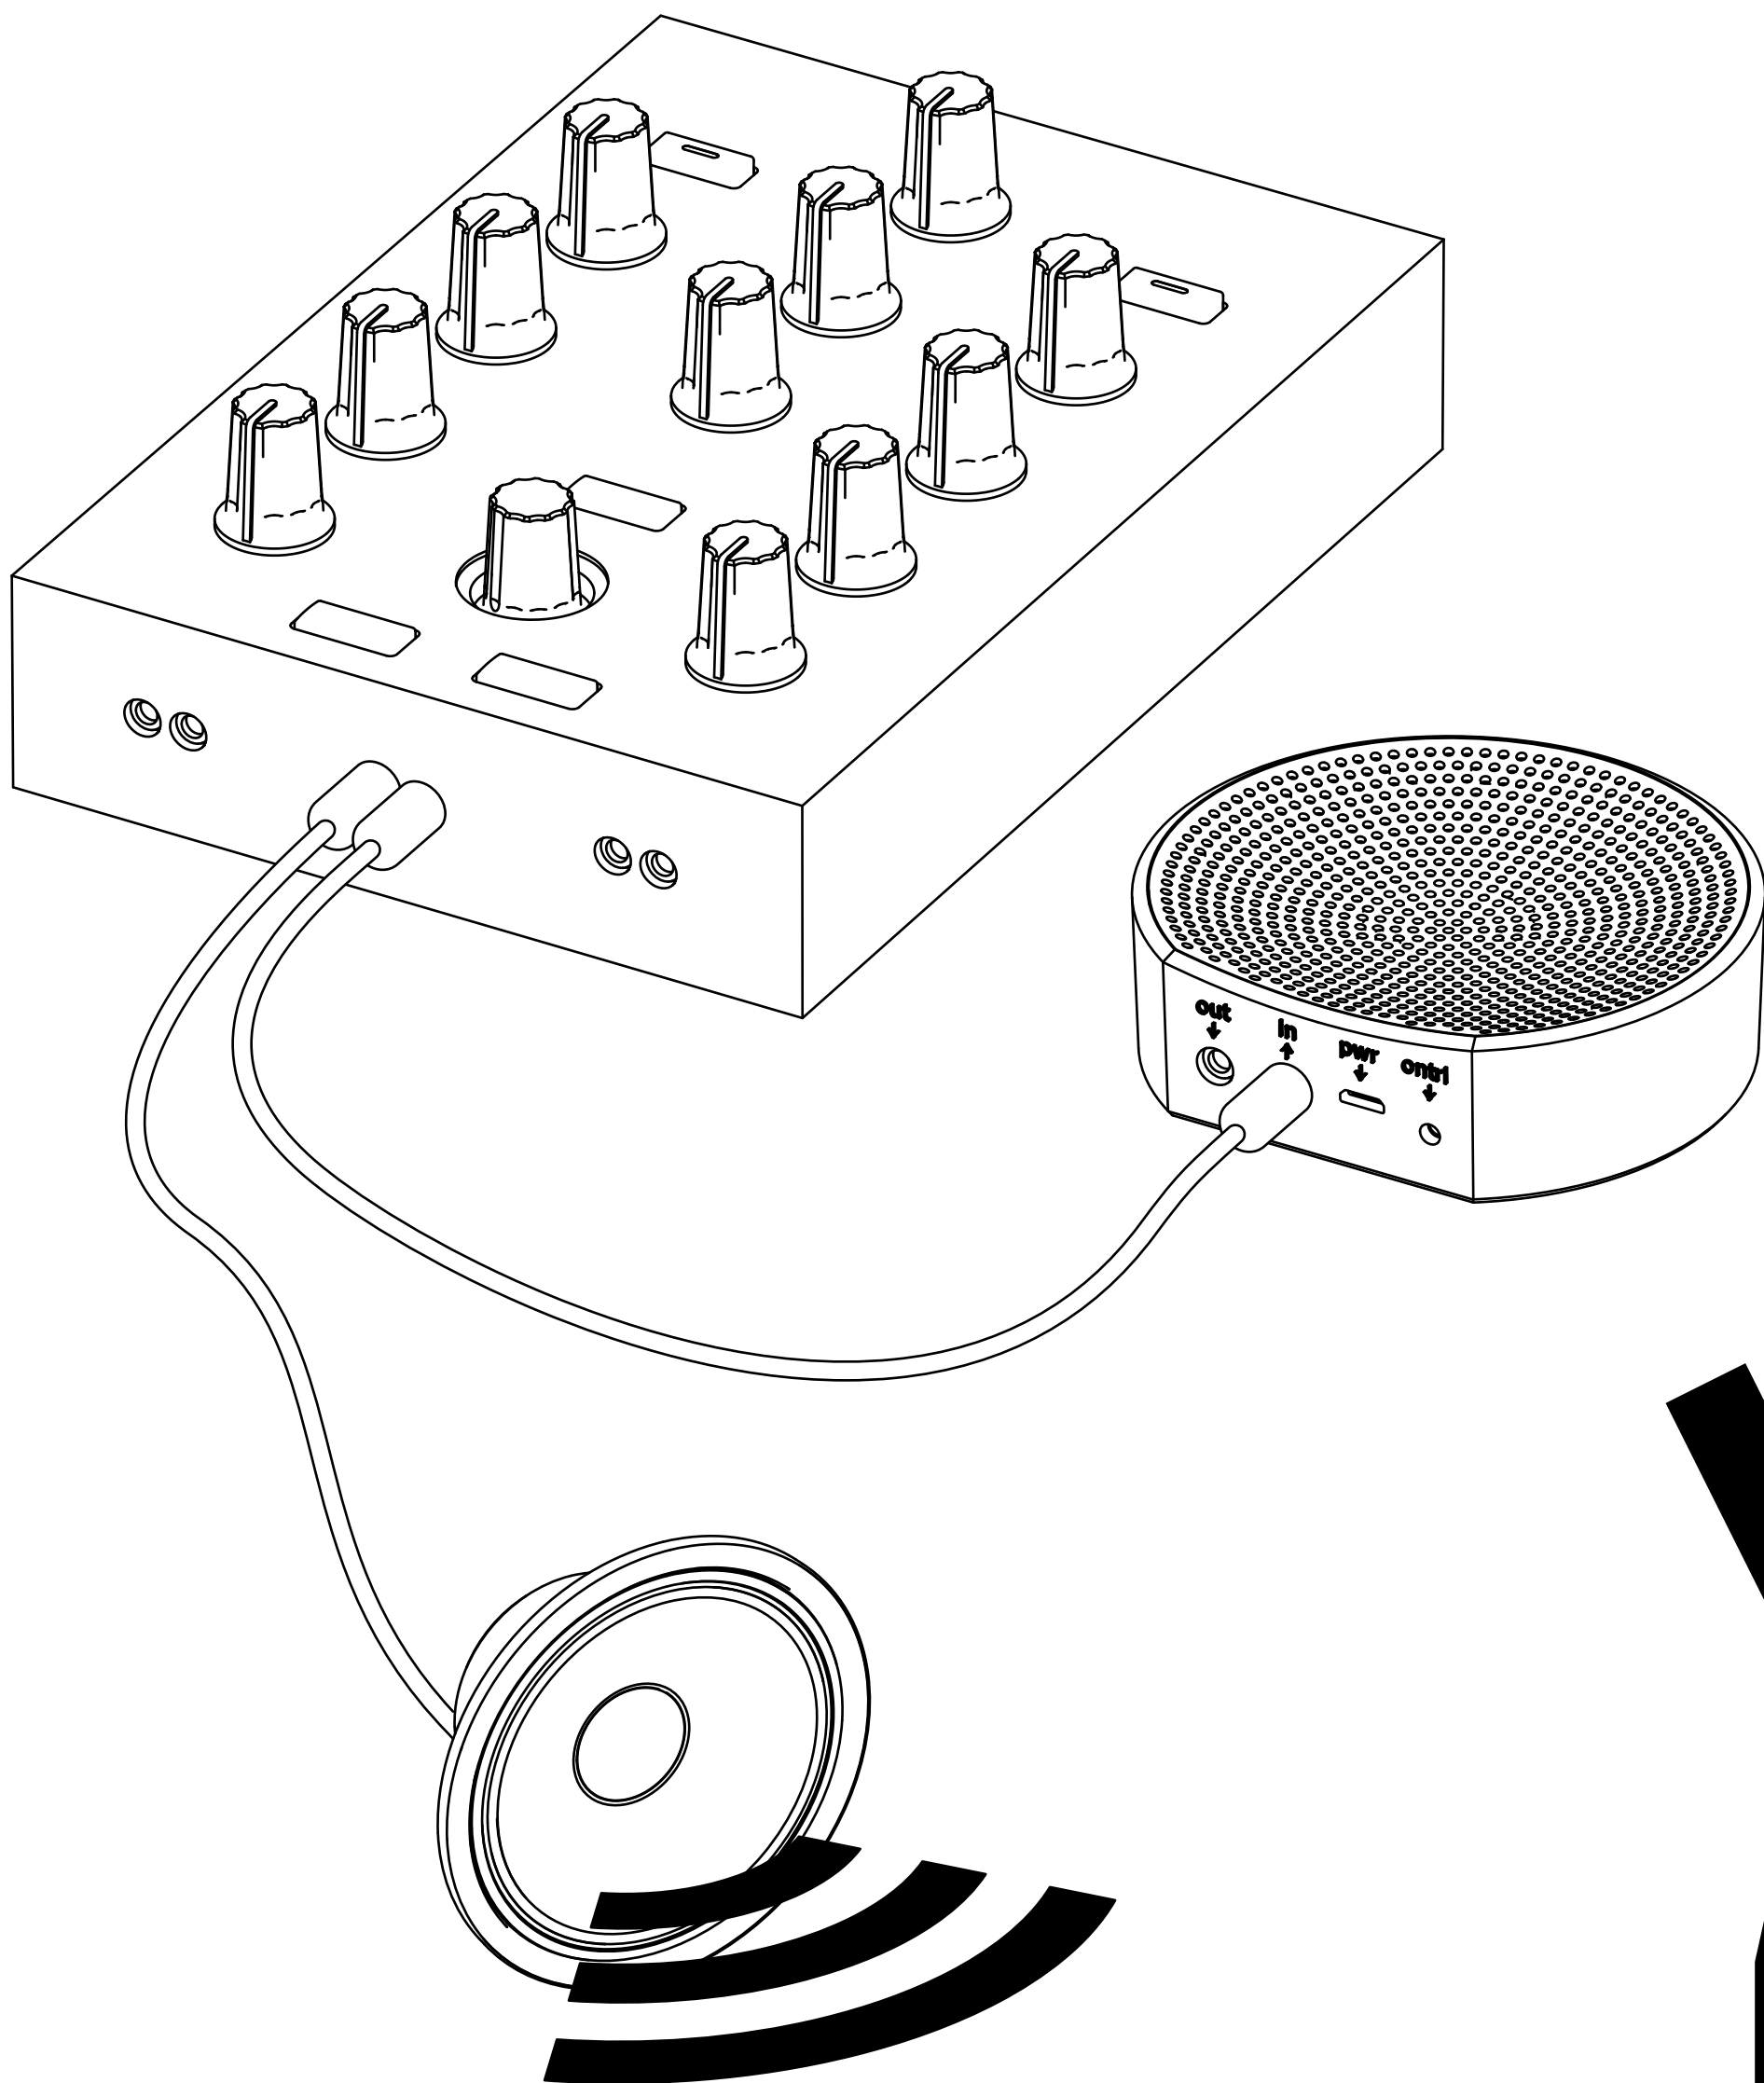

Place the TrppnBot close to a speaker. This function is active as long as no line in is connected.

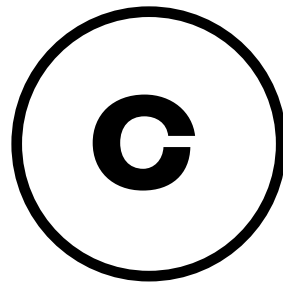

**B**

## LINE IN MUSIC RECOGNITION

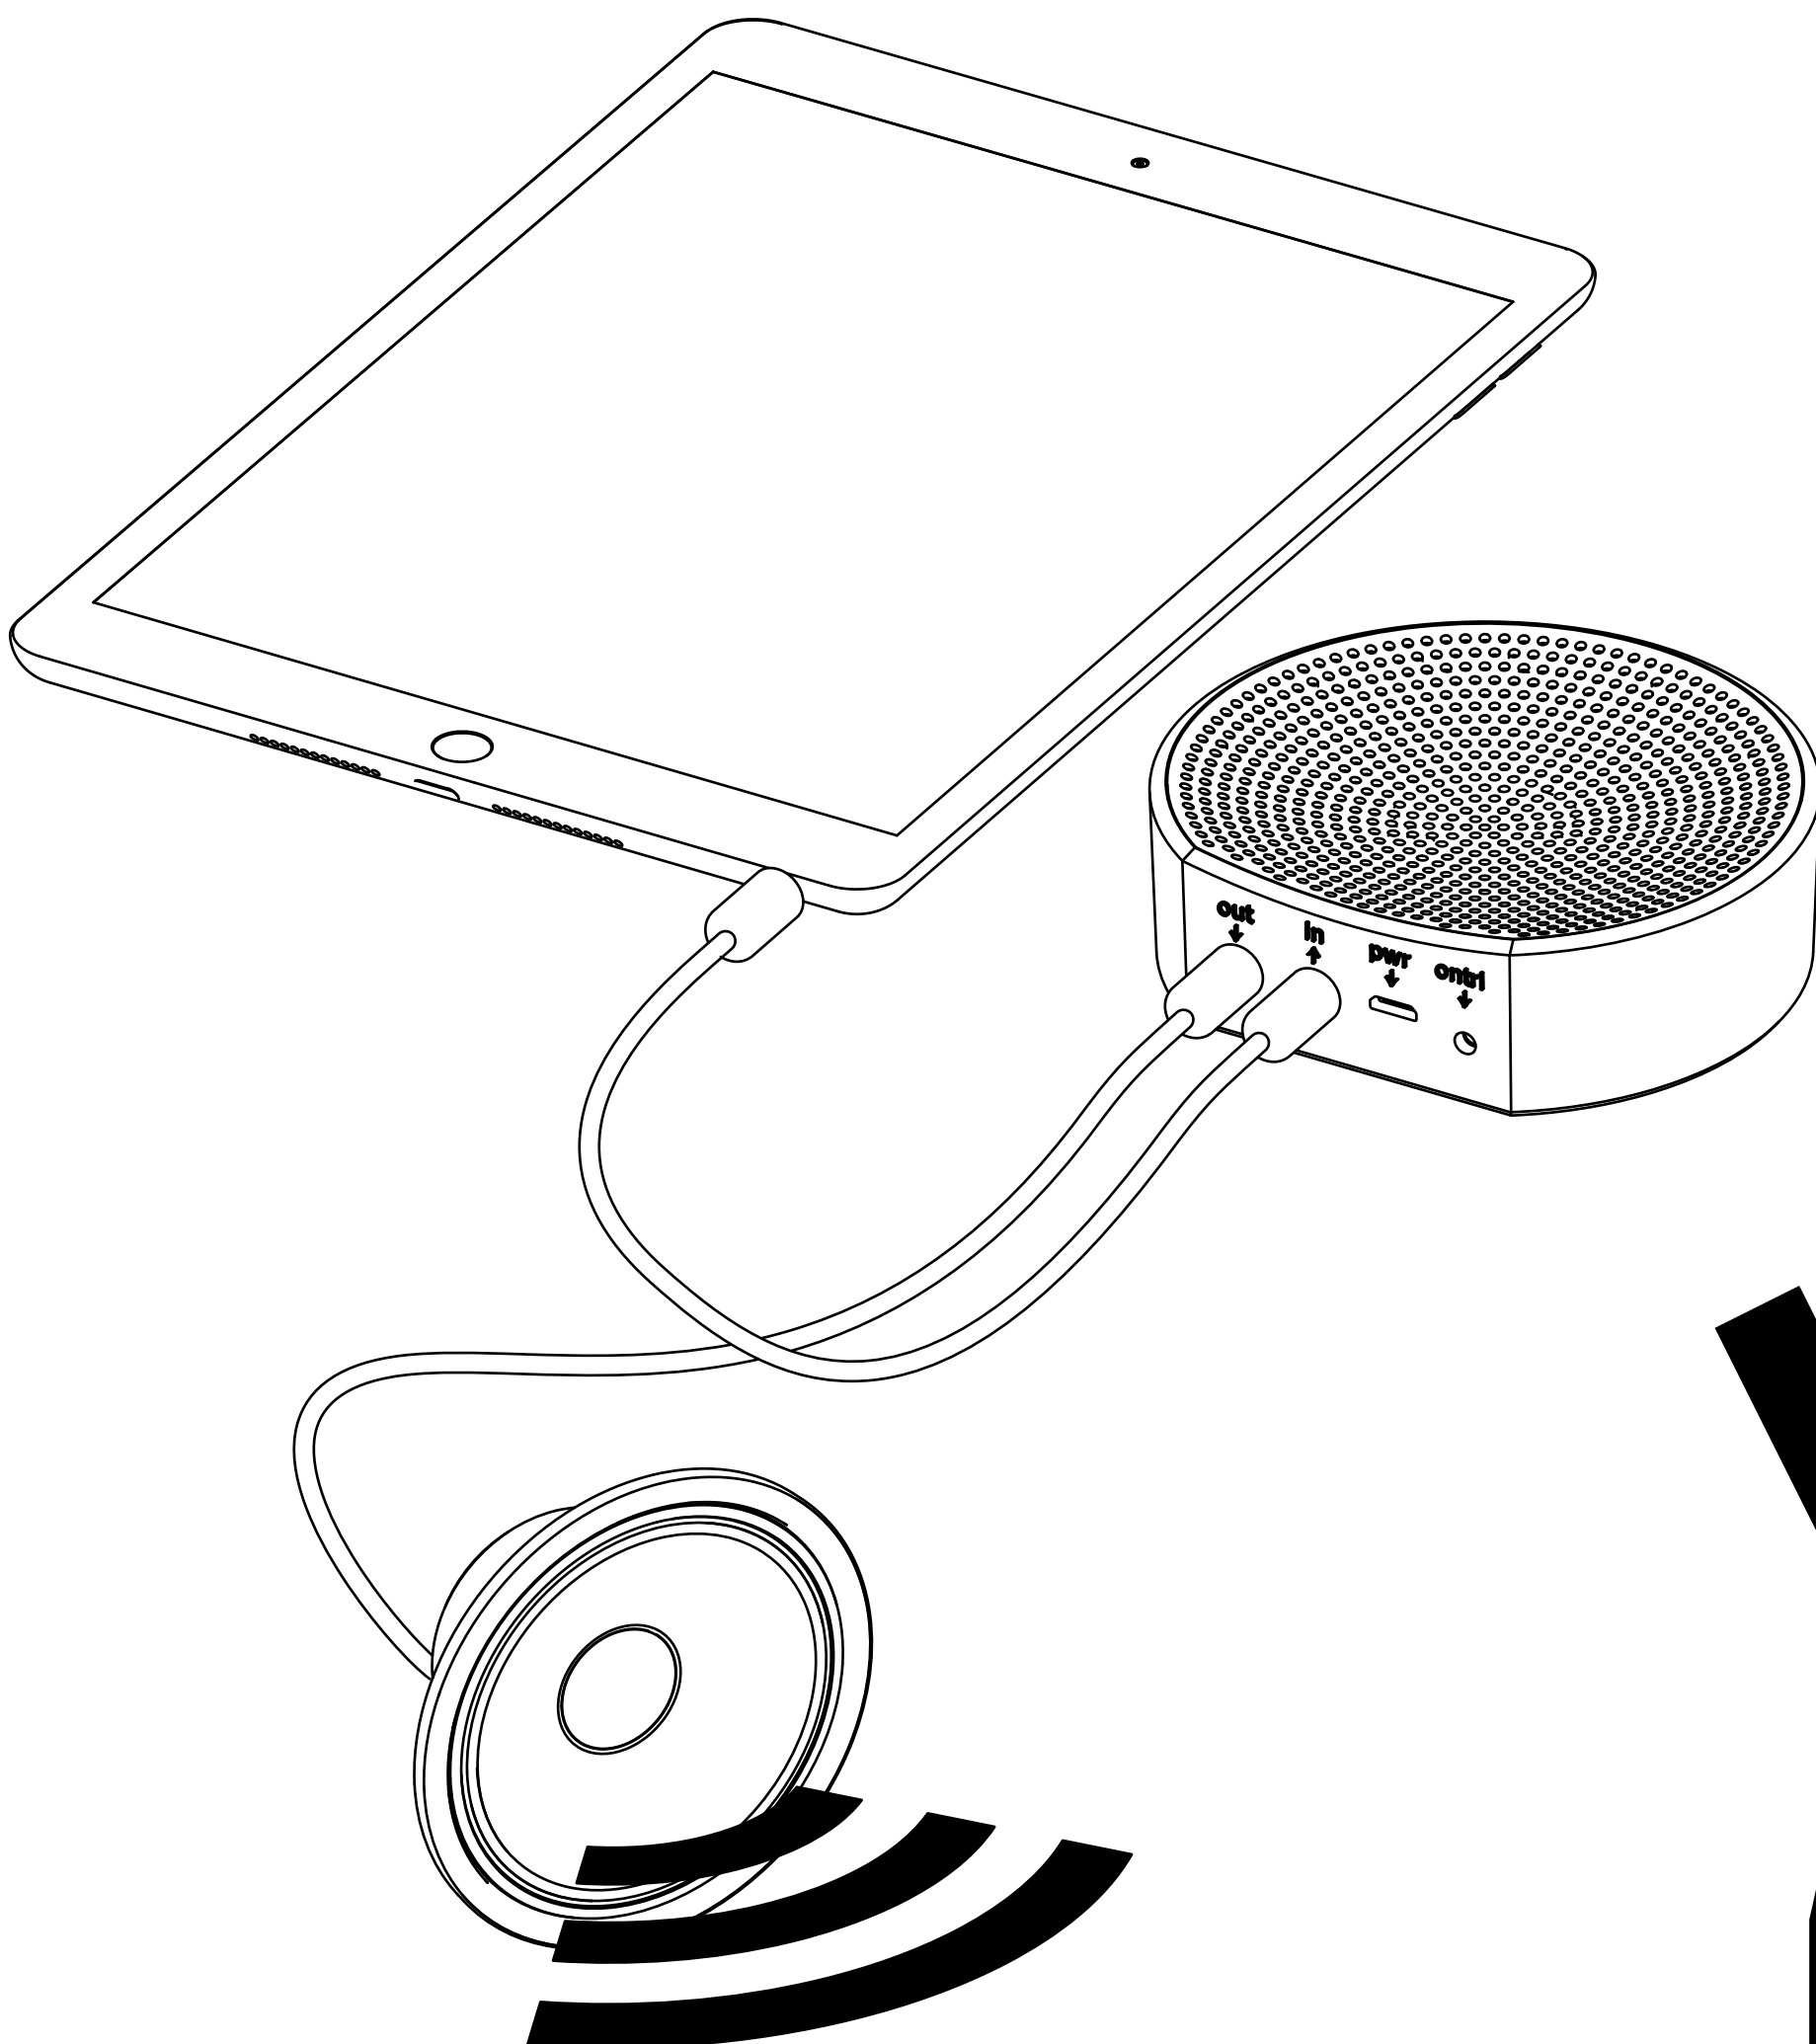

Connect the TrppnBot with a master line in at its aux in port.

## LINE IN AND OUT MUSIC RECOGNITION

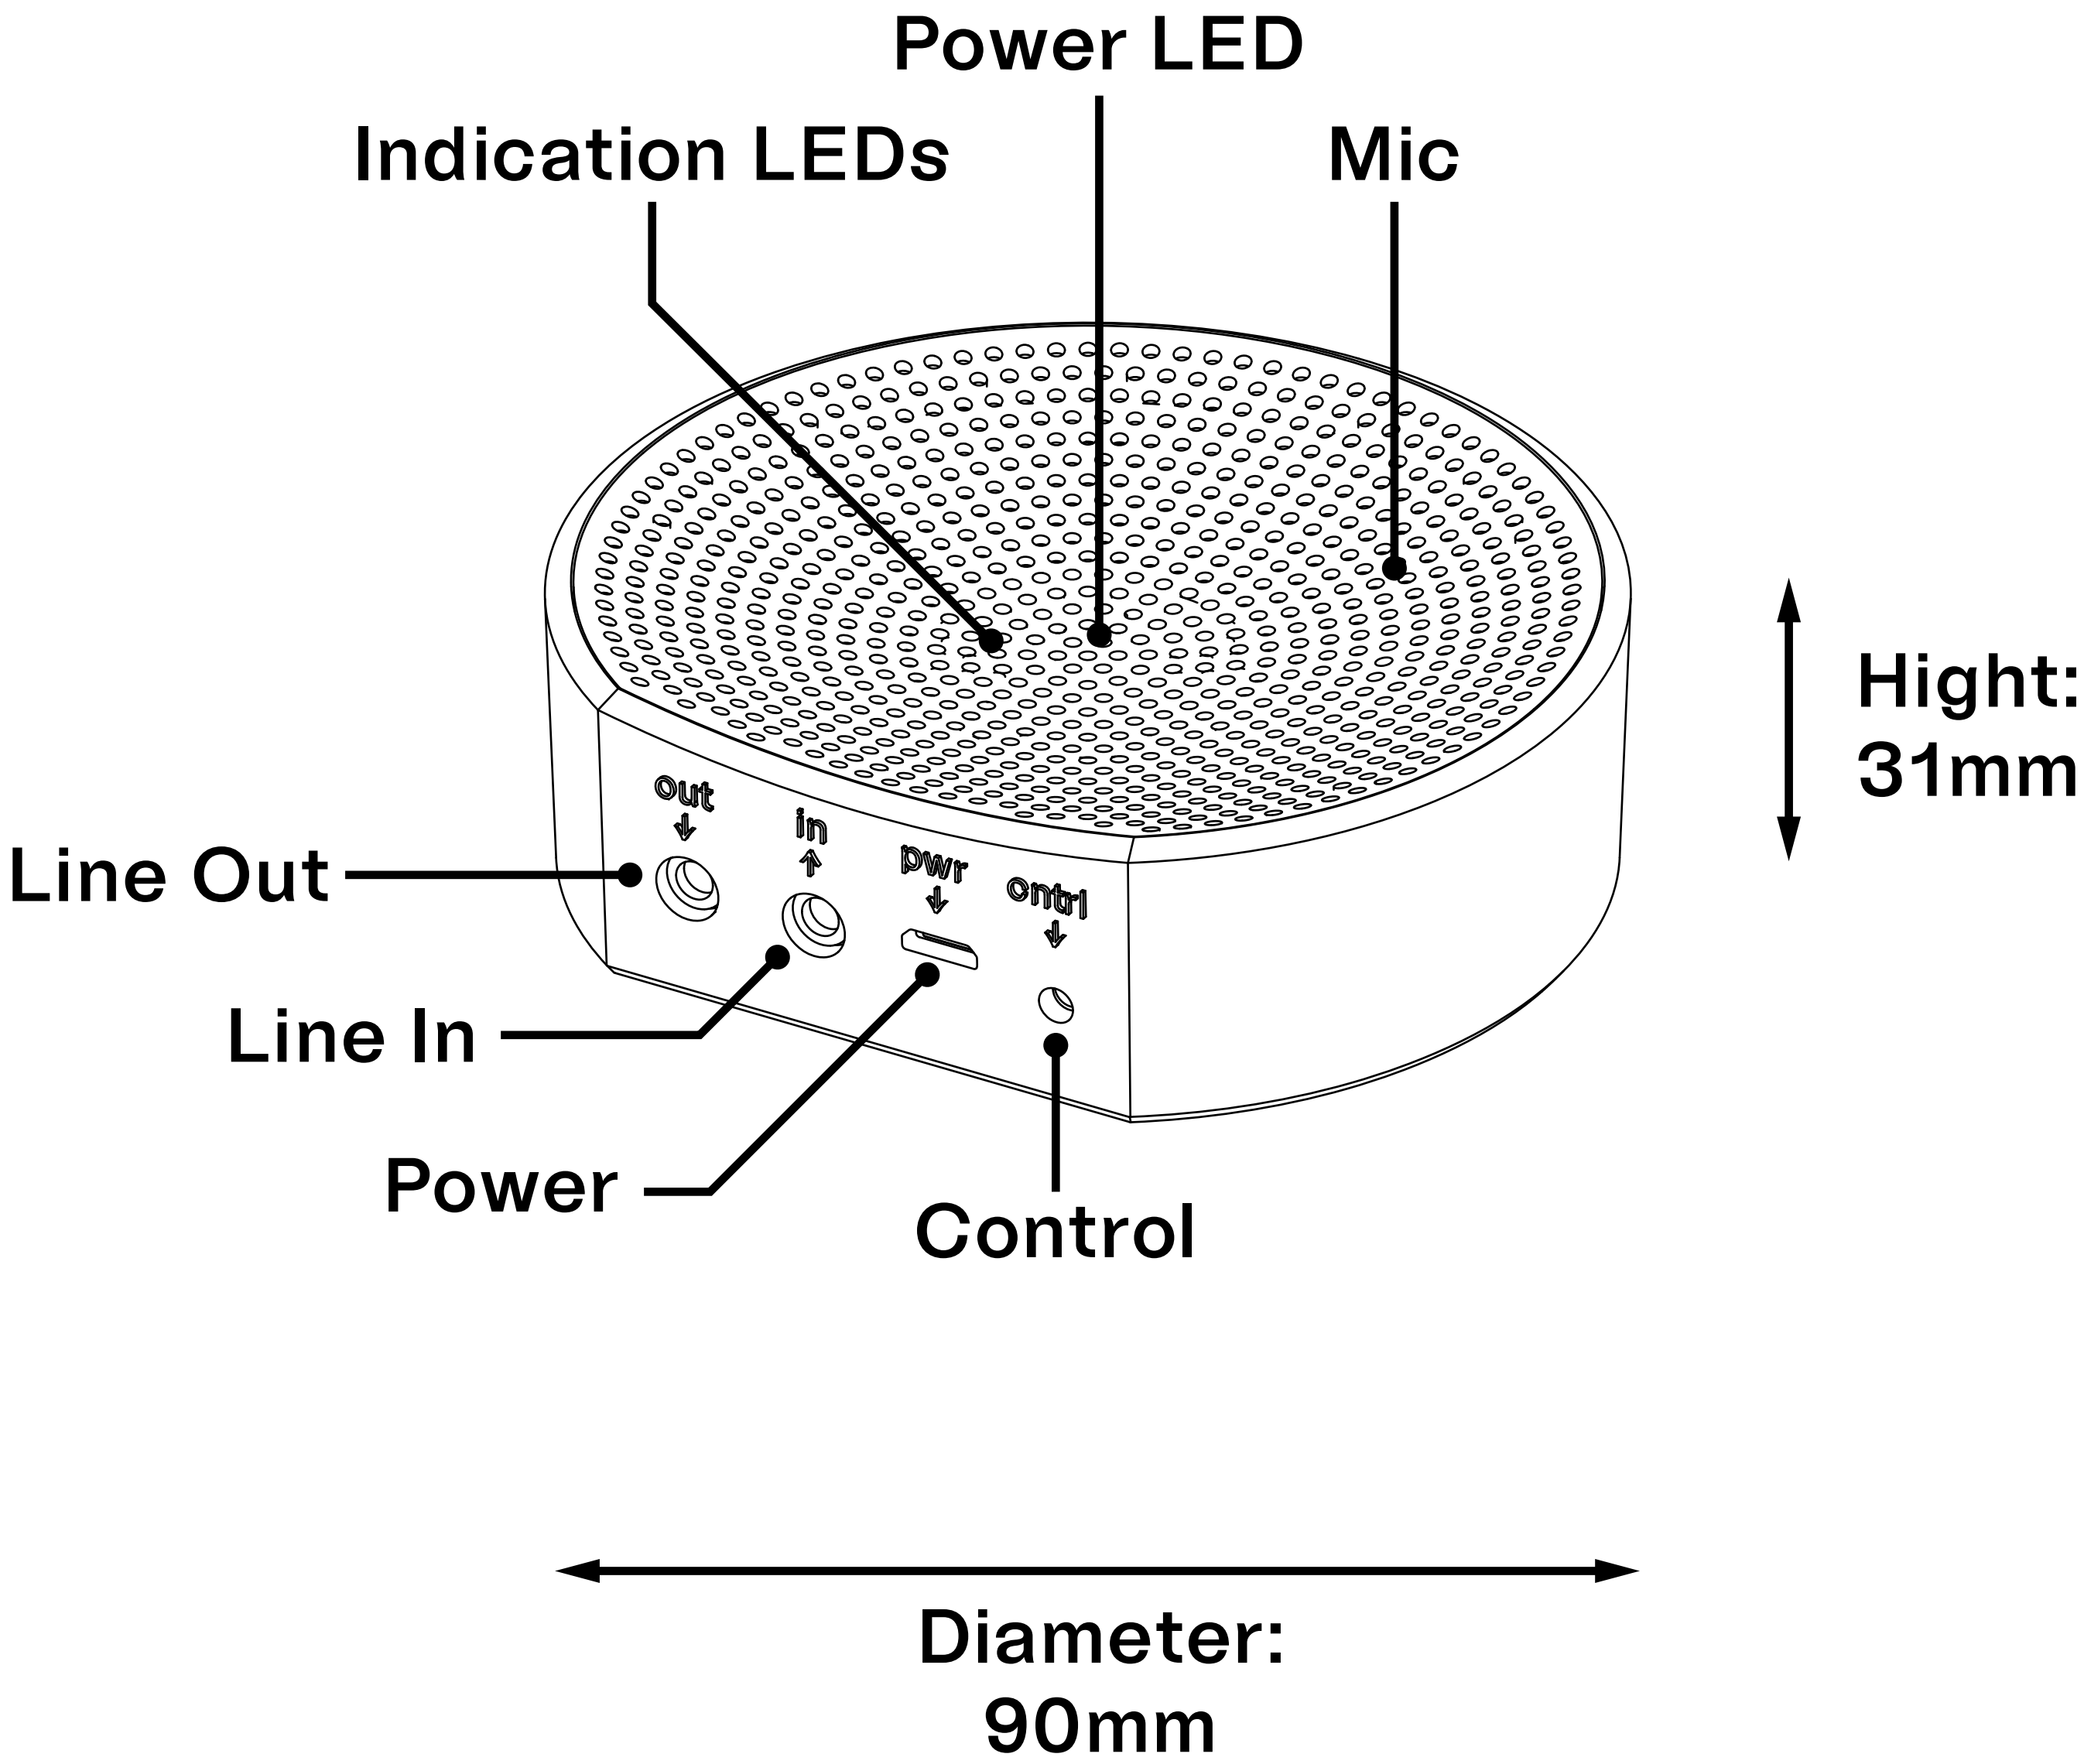

Connect the TrppnBot with a line in at its aux in port and connect your sound system with the line out.
