## ORIGINAL RECYCLED CAST IRON

COMBEKK was founded in Holland in 2015. As first brand in the world, we made a Dutch Oven made of premium recycled cast iron, produced local in Holland and 100% traceable. The name "Dutch Oven" refers to a manufacturing technique in which molten iron is poured into a sand mold. The Dutch invented this technique and therefore we are very proud that we are the only brand casting our Original toprange in the Netherlands. A Dutch Oven from the Netherlands, as it should be!

### **Original collection**

This is the highest quality cast iron range ever made around the globe. This collection is 6mm thick, the heavy metal of cookware. From open fire to induction, it can handle any type of heat. Made from 100% recycled premium cast iron, produced locally. This exceptional design is very detailed, from lid to bottom.

### THE ORIGINAL DUTCH OVEN

The perfect cast iron pan made of 100% recycled iron in Holland. Lasts a lifetime and has a 40-year warranty. It has the best heat distribution because of the 6mm thick bottom and is provided with a strong 1-layer enamel coating which never cracks. Suitable for any heat source, with anodized aluminum knob with a COMBĖKK logo on top. On the bottom you'll find a stamp that makes the recycled material traceable.

**LIBRIJE EDITION (LIMITED)**

A limited-edition Dutch Oven made in collaboration with Dutch chef Jonnie Boer of restaurant De Librije. Made of 100% recycled iron, manufactured in Holland. It lasts a lifetime and has a 40-year warranty. It has the best heat distribution because of the 6mm thick bottom and is provided with a strong 1-layer enamel coating which never cracks. For any heat source. This special edition has a gold, anodized aluminum knob with the Librije and COMBEKK logo combined on top. Until now there're 500 limited editions manufactured, and each item is numbered. Turn the Librije Edition Dutch Oven around and the coolest prison stamp will be visible that indicates that this pan is mainly made of recycled prison bars and doors.

### DOUBLE HANDLE FRY PAN

The recycled iron of the Double Handle Fry Pan comes from abandoned bikes in Amsterdam. This fry pan can be used for any type of cooking. From roasting vegetables to baking pie. It lasts a lifetime and has a 40-year warranty. Just like the Dutch Ovens, it comes with the best heat distribution because of the 6mm thick bottom and is also provided with a strong 1-layer enamel coating which never cracks. Suitable for any heat source. It has no lid and can be recognized by the stamp on the bottom that indicates where the recycled material comes from. The fry pans can be combined with the lid of the original Dutch Oven. Because of the weight of the Dutch Oven lid, it always closes perfectly.

## FRY PAN

This COMBEKK Fry Pan has the thickest bottom in the world and brings out the best in every cook. When it's hot, it stays hot for quite a while. The heavy fry pan has the best heat distribution. The Fry Pan is 6mm thick and provided with a strong enamel coating, an **extra-long FSC-certified Jatoba wooden handle** and a 40-year warranty. Perfect for roasting large pieces of meat or vegetables. The rail stamp on the bottom indicates that the fry pans are made of recycled Dutch rails. Suitable for every heat source.

## RECYCLED CAST IRON

We want to make sustainable available for every household across the globe. That's why we created an extra collection of affordable & high quality cast iron items called COMBEKK sous-chef. High quality, 100% recycled cast iron and still the recognizable COMBEKK signature. 4,5 mm thick provided with a professional emaille coating. Cooking in this range is a party for every chef, at home or in a restaurant.

### SOUS-CHEF DUTCH OVEN

The Sous-Chef Dutch Oven is made of 100% recycled iron. Perfect for slow-cooking, braising, roasting and many other ways of cooking. The Sous-Chef Dutch Oven is as light as possible, ideal for every cook. The Sous-Chef is suitable for every heat source, provided with high quality enamel coating. COMBÈKK Sous-Chef can be recognized by the bit more subtle design and its bold and bright three colors: red, orange, and black. Turn around the lid and be reminded that you're cooking with a 100% recycled famous Dutch Oven.

## **RECYCLED ALUMINUM**

An aluminum range with a professional ceramic coating. The light weight, completely black fry pan range is the perfect fry pan for making pancakes, frying eggs and all sort of food that's usually sticking to the bottom of your fry pan. This fry pan has a perfect heat distribution and the professional ILAG ceramic coating makes frying so easy. Due to the coating this fry pan is also very durable. Of course its made from recycled materials only.

### ALUMINUM FRY PAN ALU-Y

The COMBEKK Ceramic Fry Pans are light weighted, have an eye-catching black design and come in two designs. This design - ALU-Y - has bold sides, which makes this pan ideal to toss and flop various ingredients with. All aluminum fry pans are made of at least 70% recycled aluminum, the handle has a comfortable grip made of 100% recycled bakelite.

The ILAG ceramic coating gives this pan the perfect, sustainable, and easy to cook with finish. Suitable for every heat source. The professional ceramic coating is **PFAS-free and BPA-free**.

### ALUMINUM FRY PAN ALU-X

The COMBEKK Ceramic Fry Pans are light weighted, have an eye-catching black design and come in two editions. This design - ALU-X - has straight sides, which makes this pan ideal to stir and make sauces with. This baking surface is even bigger than the ALU-Y design. All Ceramic fry pans are made of at least 70% recycled aluminum, the handle has a comfortable grip and is made of 100% recycled bakelite. The ceramic coating gives this pan the perfect, sustainable, and easy to cook with finish. Suitable for every heat source. The professional ceramic coating is **PFAS-and BPA-free**.

**ALUMINUM FRY PAN ALU-W**

The COMBEKK Ceramic Wok is light weighted and has an eye-catching black design. Perfect to cook oriental dishes with. The Ceramic wok is made of recycled aluminum, provided with a comfortable soft grip handle made of recycled bakelite. The ceramic coating gives this pan the perfect, sustainable, and easy to stir fry with finish. The ceramic coating is PFAS- and BPA-free. Suitable for every heat source. The wok range forms a nice match with the recycled aluminum fry pan range.

## **RECYCLED STAINLESS STEEL**

We introduce to you: the first recycled stainless steel in the world. A range of 100% solid stainless steel that's unbreakable. These cookware items last a lifetime and look great on your stove as well. Due to the thick bottom all cooking pots and fry pans have the perfect heat distribution. Suited for ever heat source, even induction. Not only for cooking at home, but also for restaurants or hotels. Oven safe and dishwasher safe.

### RECYCLED STAINLESS STEEL SET

The Recycled Stainless Steel Cooking Set is perfect if you are done with all your old pots and want new ones that just look great on your stove. And last a lifetime due to the premium quality stainless steel. A solid cooking set that can be used for boiling vegetables, eggs, pasta and more. The Recycled Stainless Steel Cooking set consists of one saucepan with a silver round shaped handle and three different sizes silver pans with lids (16 cm - 18 cm - 20 cm). The lids are provided with a typical COMBEKK design and logos on the knob and handles. The cooking set is made of recycled stainless steel and is perfect for daily use in the kitchen. Add the fine large (single) soup pan to the cooking set and make it a set of 5. Dishwasher safe, suited for every heat source + oven.

## **RECYCLED STAINLESS STEEL & CERAMIC COATING**

The COMBEKK Ceramic PRO is made from premium quality stainless steel and provided with a durable, natural coating. This fry pan is not exactly a lightweight if you're talking about kitchen assets. The hollow handle makes this pan perfect for cooking without burning your hands. The ceramic coating makes it so easy to clean, easy to serve on a platter and durable as well. The 6mm sandwich bottom - made from 100% recycled, solid stainless steel - makes sure the heat is divided perfectly. Due to the 3 ply thick bottom, this fry pan is rock solid and it not easy to flip over on your stove. Oven & dishwasher safe.

**AND THERE IS MORE... KITCHEN TOOLS.**

COMBEKK is not kidding about sustainable cookware. Not kidding about great quality and design either. If you can use it in the kitchen, COMBEKK has made (or is going to make) it. In this chapter you will find all the top-quality tools COMBEKK has created for any kitchen. A professional one or a kitchen at home. Every tool is recycled and has its own story. Like these **Cutting Boards made of recycled ritchlite material, crafted in Holland.**

### CUTTING BOARDS

COMBEKK Recycled Paper Cutting Boards are crafted in Holland. Only one mile away from the headquarters of COMBEKK. The cutting boards are made of high-quality ritchlite material. The cutting boards are knife friendly and dishwasher safe. They are heat resistant, non-porous and come in three different sizes. The ideal cutting board for restaurants and homes. And with the hole in the left upper corner, it's always easy to lift the board from any kitchen counter or kitchen table.
