

Empower Your Staff to Own Their Professional Success

Give providers the ability to track key data about services, earnings, and schedules from their mobile device. Empower them to set goals and track KPIs, while eliminating miscommunications with front desk staff. Create a more transparent and efficient culture for everyone.

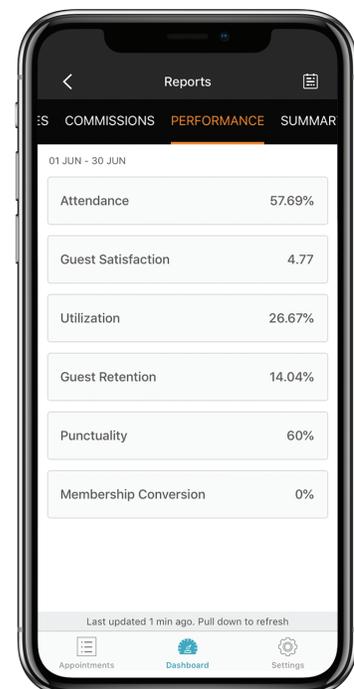

Put service providers in the driver's seat

Providers live by their commissions and tips, so miscommunications with the front desk or payroll surprises can erode their trust in you and fellow teammates. With Zenoti, providers get real-time visibility into their schedules, services performed, and tips earned — putting them in total control of their daily work.

A data-driven employee review process

Set performance goals to motivate your team and drive productivity. Measure against KPIs like utilization, retail sales, and customer requests, and combine this knowledge with Zenoti Analytics for a 360-degree view of your operational efficiency. Best of all, your employees stay “in the know” — they have full access to their own performance tracking stats at all times.

A smoother work experience for service providers

Empower your employees to take their professional growth into their own hands with the Zenoti Employee Mobile App.

Shift scheduling options

Allow a provider to request a day off or a change in shift. Check details of past and future shifts.

Perform chair-side upgrades

Offer add-ons and retail directly through the app, which automatically updates the guest's invoice.

Access guest notes

Service providers can record custom notes about each appointment for future reference.

Streamline clock-ins and clock-outs

Ensure your employee is actually on-premise when they clock in.

Drive staff loyalty

Give your providers tools in-house to grow their careers, and strengthen their loyalty.

Book appointments

Optionally allow providers to add appointments directly to their book

Give your staff (and your business) a competitive edge with Zenoti mobile.
