

FSC- Mobile Brochure

Flecto Sense Concentrator - Mobile (FSC-Mobile) is a solution designed for companies to access meter readings while driving through a site. Saving you time and money and making life easier.

Water Management System

Powered by Flecto Sense

- The concentrator facilitates AMR (Automatic Meter Reading) to read meters on fixed network, walk-by or drive-by modes.
- Record meter readings as you drive. All meter readings will get uploaded as the FSC-Mobile receives them.
- The system enables the user supported functions to be collected via the radio.
- Enable users to manage their large estate water consumption and track usages.
- All communication is secure, only you have access to your user account and data.
- Facilitate revenue collection.
- The system caters for future expansion to full AMI (Advanced Metering Infrastructure), aimed at automating all facets of meter management.
- Works with all Flecto Sense and Kamstrup WMBus technologies.

Unique

The system is unique in the way the data is always encrypted. Your data will never be in the wrong hands. Know exactly what is happening on the ground while not having to spend time in the mud.

Target audience

Will this be the solution for you? Ask yourself how much time is spent on accurately getting the data for every unit you manage. If you are managing a large estate where deploying an FSC is not feasible, opt for the FSC-Mobile..

Business in a box.

Without accurate data the reading doesn't mean much. The FSC-Mobile will get you the results you need, every time. You can count on accurate readings, timely responses, data that you can use and report the way you want to.

Smart ideas

By partnering with a technology company that is on the bleeding edge, you position yourself to always be a trend setting firm. This is what Flecto Sense does daily for hundreds of customers. Join us today.

Location

The FSC-Mobile should be installed on a vehicle that travels through the estate on a regular basis. Estate security vehicles on patrol or waste collection services are suitable for this unit.

Make more profit.

Imagine having a dedicated device roaming the estate while collecting meter data. Fitting this product to existing vehicles will collect meter readings while keeping your estate safe.
