## BIOGRAPHY

### EDDY DE KLEIN

FOREVER STUDENT

I have a passion for learning and wish I could stay at school forever. Coming from a family working in the graphic industry, I've always been fascinated by the latest technical developments and the rapid changes as technology advances. During my professional career, I've been fortunate to meet and work with a lot of talented people and experience how they continue to explore and learn every day. I apply that approach in my career as well. Even at the age of 49, I'm very excited to see what the future holds. Visualisation is my specialty and I master the skills for creating lay-outs, images and animations to communicate a message in the most effective way. And I'll keep learning how to do so.
