Roam Book Template

Instructions:

1. Add a new page in your Roam database called Templates.
2. Copy the list below and paste into your Templates page.
3. Go to a new page, type the templates shortcut, which is two semicolons (;;), and then choose 'Book Notes Template' from the list that appears.
4. To add more templates, go to your Templates page, add a new bullet and type [[roam/templates]] after it, followed by the list you want to be able to reuse.

What is a Roam Template?

These are pre-made bullet lists that you can use over and over again without having to think about what to write. A template is great for daily journalling, book notes, and any other time that you find yourself constantly typing out the same page structure.

Copy into your Templates page:
