

Rules of Play & Operational Procedures

Show Frequency

The Kiwanis TV Bingo show airs once each week.

Bingo Card Purchase

- Bingo Cards are available in a package of 3.
- Cards are sold in Convenience Stores, Grocery Stores, Lottery Kiosks, Bar & Grills, and Drug Store.
- Each card is dated and colour coded with the date of the show for which it is purchased, and is valid only for the date of issue
- Each card contains a different serial number located in the free space in the center of the card. This number is matched by a number in the Kiwanis TV Bingo computer software program, and is used to verify that a card being played is a winning card on that game
- Each card contains the telephone number used by Kiwanis TV Bingo for the players to be able to contact Kiwanis TV Bingo to claim their winning card immediately as they realize they have won

Special Circumstances for Kiwanis TV Bingo Operation

- (a) The Caller will stop calling Bingo numbers and end the game when a phone call is received from a potential/validated winner of the game at the studio
- (b) Should a player not be able to get through on the telephone to because of technical or other problems until after the next game has begun, their winning card can still be verified during the show by the use of our second (back-up) computer as well as recorded winning serial numbers.
- (c) Cards will only be honoured for the show for which they are dated, and only up to the conclusion of that current Bingo show.
- (d) TV Bingo winners will be declared using all of the balls that are called for that game. This permits Kiwanis TV Bingo to honour all calls, which may be from valid winners.
