

CISCO SD-WAN & MICROSOFT TEST DRIVE

Service Overview:

At Netnology, we specialize in Cisco SD-WAN (Viptela) and Microsoft Azure enablement and implementation services. The test-drive offer will help customers develop a baseline understanding and value-prop of leveraging features within Cisco SD-WAN solution to optimize user experience for Microsoft 365.

This 2-4 hours session will demonstrate use-cases related to Cisco SD-WAN integration with Microsoft 365 (SaaS) and Microsoft vWAN (IaaS). It will also highlight ease of configuration and manageability of this integrated solution.

This test-drive is built and delivered by subject matter experts (SME) who have extensive experience working with Cisco SD-WAN solution and Microsoft Azure.

Solution Overview:

Cisco SD-WAN's Cloud OnRamp for SaaS has optimized users' SaaS experience with features like direct internet access and automatic optimal path selection. These features enable admins to easily connect and integrate with many of the most popular SaaS platforms used by today's businesses, including Microsoft 365.

Cisco and Microsoft have rolled out several new features designed to improve the integration between Cisco SD-WAN and Microsoft 365 (SaaS) and Microsoft vWAN (IaaS). These enhancements will give users more control over traffic flow, insightful deeper metrics, and automated policy integration, allowing for a seamless experience with Microsoft 365.

Service Benefits:

Netnology has a team of world class engineers who specialize in Cisco SD-WAN (Viptela) and Microsoft Azure and are passionate about customer success. Netnology will partner with you to provide:

- Solution and use-cases overview
- Step-by-step use-cases demos

Service Scope:

As part of the 2-4 hours Test Drive engagement, Netnology will help with the following:

- Solution Overview
- Cisco SD-WAN Value Proposition
- Cisco SD-WAN and Microsoft 365 / Azure Use-cases
 - Microsoft 365 Optimization with Cisco SD-WAN (SaaS)
 - Cisco SD-WAN integration with Microsoft vWAN (IaaS)

- User-experience optimization leveraging Cisco SD-WAN features
 - Overview of demo environment with end-to-end user flows
 - Degrade demo environment to showcase Cisco SD-WAN Microsoft 365 optimization
- Lessons learned and enhancements

Target Audience:

This service is designed for Pre and Post sales professionals selling, configuring, deploying, and managing the Cisco SD-WAN and Microsoft 365 and vWAN solution.
