

CISCO APPDYNAMICS MENTORED POV PLUS

Service Overview:

At Netnology, we specialize in Cisco AppDynamics enablement and implementation services to expedite the adoption of Cisco AppDynamics solution. As part of this Mentored POV Plus service offer, our subject matter experts (SME) partner with your team to ensure a smooth deployment of the AppDynamics solution in the lab environment and provide knowledge transfer to equip your staff with the necessary skills to configure and manage the AppDynamics environment.

Cisco AppDynamics:

Cisco AppDynamics gives you visibility into the digital experience by giving real-time information on an application on-prem or in the cloud. AppDynamics gives insight into any environment with features like network monitoring, multi-cloud monitoring, infrastructure monitoring, application performance monitoring, end user monitoring, and business insights. AppDynamics can be SaaS based or on-prem for any use case needs. AppDynamics has several distinct components and functions, these are:

- Network Monitoring
- Multi-Cloud Monitoring
- Infrastructure Monitoring
- Application Performance Monitoring
- End User Monitoring
- Business Insights

Service Benefits:

Netnology has a team of world class engineers who specialize in Cisco AppDynamics solution and are passionate about customer success. Netnology will partner with you to provide:

- Step-by-step guidance from an SME on AppDynamics deployment
- Configuration and documentation of AppDynamics solution
- Knowledge transfer to ensure customer is ready to configure and manage the lab environment

Scope of Services:

As part of the 5-day Mentored POV Plus engagement, Netnology will help with the following:

- Solution Overview
