

CISCO SD-WAN MULTIDOMAIN INTEGRATION

Service Overview:

As part of this Integration service offer, our subject matter experts (SME) partner with your team to ensure a smooth deployment of the selected SD-WAN multidomain integrations in the lab environment and provide knowledge transfer to equip your staff with the necessary skills to configure and manage the deployed multidomain environment.

Solution Overview:

Cisco is doubling down on integrating multidomain architectures which address customer business needs. These simple multidomain integration examples span Cisco SDx and Cloud architectures and solutions, without technology barriers. In other words, one part of Cisco making another part of Cisco even better - Be Boundless. Netnology is one of the top integrator partners, and a Be Boundless champion, working hand in hand with Cisco, to make Be Boundless a reality!

Service Benefits:

Netnology has a team of world class engineers who specialize in Cisco SD-WAN multidomain integrations enablement and implementation services, and are passionate about customer success. Netnology will partner with you to provide:

- SME mentoring on SD-WAN multidomain integrations.
- Configuration and documentation guidance of SD-WAN multidomain integrations.
- Knowledge transfer to ensure customer is ready to configure and manage the deployed environment.

Scope of Services:

As part of this consultative engagement, Netnology will help with the following:

- Sales/SE team briefing, covering customer benefits, and integration examples walk through
- SE/FE deep dive workshop covering up to 2 (two) SD-WAN multidomain integration examples
- Lab setup support for up to 2 (two) SD-WAN multidomain integration examples
- Multidomain Integration Examples:
 - Cisco SD-WAN and ACI Integration
 - SLA enforcement across domains
 - Cisco SD-WAN and SDA Integration
 - SLA enforcement across domains
 - Cisco SD-WAN, SDA and ACI Integration
 - Cross-domain policy enforcement and segmentation
 - Cisco SD-WAN and HyperFlex Integration
 - Smart branch and optimized WAN
 - Cisco SD-WAN and Umbrella Integration

- Secured internet and IT application access

Target Audience:

This service is designed for Network Architects and Engineers, designing, configuring, deploying and managing the SD-WAN multidomain environment in lab and production environments.

Prerequisites:

Customer needs to ensure that all equipment and devices are racked & stacked, cabled and powered-up prior to the kick-off. Customer also needs to acquire the necessary software licenses for the deployment of SD-WAN multidomain environment.

Service Deliverables:

No	Deliverable	Service Details
1.	Project Kickoff	<ul style="list-style-type: none"> • Project Overview
2.	SE/FE Briefing	<ul style="list-style-type: none"> • Benefits • Integration examples walk-through
3.	SE/FE Deep-dive Workshop	<ul style="list-style-type: none"> • Covering up to 2 (two) SD-WAN multidomain integration examples
4.	Lab Setup	<ul style="list-style-type: none"> • Support for up to 2 (two) SD-WAN multidomain integration examples
5.	Knowledge Transfer	<ul style="list-style-type: none"> • Explain to the customer how to configure and manage the solution in their environment
