---

**Volunteer**      Workawayer | *Fujita Farm,*  
*Yamaguchi, Japan*  
Philippine Medical Mission  
volunteer | *RMMF*  
English Camp Teacher |  
*Kodomo Bosai*  
Food Bank Intern | *Jewish Family*  
*Services*

---

**Work**      **Designer, Brand and Interactive** | Cognition  
Studio Inc  
Designing UI experiences and creating data  
visualizations (interactive and across mediums) for  
science communications clients including The Gates  
Foundation.

April 2021 – Present

**Junior designer, Brand and Interactive** |  
Cognition Studio Inc  
November 2021 – April 2021

**Design Intern** | Hopelab  
Designed digital interfaces and used design research  
practices to help LGBTQ+ youth live healthier, happier  
lives. Explored data visualization as an opportunity for  
sharing stories at Hopelab.

June 2020 – October 2020

**Interaction Design Intern** | Philips Healthcare  
Researched and developed solutions for Philips'  
defibrillators (AEDs). Accounted for user experiences  
throughout the lifecycle of the product. Applied  
systems thinking to the AEDs, their corresponding  
services, and all those who participate in the Philips  
AED ecosystem.

September 2019 – December 2019

**Design Intern** | Cognition Studio Inc  
Designed UI experiences and created data  
visualizations (interactive and across mediums) for  
science communications clients including Myovant  
Sciences and Gates Ventures.

June 2019 – August 2019

**Student Assistant** | Institute for Health Metrics  
and Evaluation (IHME)  
Created data visualizations, animations, and websites  
for IHME's reports, including social media. My  
infographics have appeared in major online and print  
publications, including *The Washington Post*.

June 2016 – August 2017 | July 2018 – June 2019

---

**Activities**      Letterpress printing | *Window Pane Press*  
Silk screening | *Artist & Craftsman*
