POSITION: Data Scientist

We are looking for a data scientist that will help us discover the information hidden in vast amounts of data, and help us make smarter decisions to deliver even better products. Your primary focus will be in applying data mining techniques, doing statistical analysis, and building high quality prediction systems integrated with our products.

Responsibilities:

- Selecting features, building and optimizing classifiers using machine learning techniques
- Data mining using state-of-the-art methods
- Extending company's data with third party sources of information when needed
- Enhancing data collection procedures to include information that is relevant for building analytic systems
- Processing, cleansing, and verifying the integrity of data used for analysis
- Doing ad-hoc analysis and presenting results in a clear manner
- Creating automated anomaly detection systems and constant tracking of its performance.

Qualifications:

- Minimum Qualifications
 - Proven experience as a Data Scientist or Data Analyst
 - Experience in data mining
 - Understanding of machine-learning and operations research
 - Knowledge of R, SQL and Python; familiarity with Scala, Java or C++ is an asset
 - Experience using business intelligence tools (e.g. Tableau) and data frameworks (e.g. Hadoop)
 - Analytical mind and business acumen
 - Strong math skills (e.g. statistics, algebra)
 - Problem-solving aptitude
 - Excellent communication and presentation skills
 - BSc/BA in Computer Science, Engineering or relevant field; graduate degree in Data Science or another quantitative field is preferred

What we offer:

You will experience the ins-and-outs of a fast-growing Startup with the opportunity to make a real difference. You will get to learn and work alongside high-performing entrepreneurs in an innovative and rewarding environment. You will work remotely but will need to be available from time to time on site for events. This is a part-time 2-month term with the possibility of extension or can lead to a permanent and full-time position within Baüne Ecosystem Inc.

Join our team today to gain hands-on experience that shapes the next generation of business.

We are excited to meet with and hire top talent out there. We appreciate your interest in working with us; however, only those applicants selected for interviews will be contacted.

What are the pre-employment requirements?

- A Resume and Cover Letter outlining relevant motivations for applying for this position.
- Language: French or English, preferably both

Terms of Reference

If you make the shortlist for this role, you will hear from us within 10 business days of the posting close date. We will also keep your application on file for future roles that you may wish to consider.

We are equal opportunity employer. If your application is shortlisted, you will participate in a digital interview for final selection.
