NYCON FIBRES

IMPROVE YOUR IMPACT

Nycon Fibres are a cost effective, advanced technology fibre solution that is superior to any other synthetic fibre or welded-wire reinforcement. Nycon Fibres are a multi-filament bundle that transforms the way concrete behaves. You can pump it, place it and work faster, easier and more affordably

KEY FEATURES / BENEFITS

- Drastically reduces shrinkage cracking
- Results in a uniformly smooth, high quality hairless finish
- Invaluable in septic tanks poured walls and other formed units
- Higher resistance to alkalis, corrosion, abrasion, impact, weathering and ultra violet light

Ideal for flatwork, elevated decks, sidewalks, driveways, curbing and patios.
