To Whom it May Concern

For the past two years Jared van Berkel and the team at Fantail Studios have been filming and broadcasting some of the in-depth work that we are doing, helping many people from all walks of life receive healing from past traumas, fears, and addictions.

Primarily Fantail Studios has been focusing on documenting the work within the Mongrel Mob Kingdom and the Black Power MGs Whakatane. As a result they have captured on film many life lessons, inspiring stories and healing moments as these men go through our programmes in order to find inner healing. The film crew have also contributed by sharing their own traumas and life stories within the meetings as a part of these 3-day Hui. 100% of Fantail's time, resources, and travel have all been covered by themselves.

Already hundreds of thousands of people in Aotearoa have witnessed some of these clips from Fantail Studios online, and we've been told this will increase as Fantail nears the finish line of producing a feature film around this work. The content they are creating has the power to breakdown many barriers by showing the world the true hearts behind the patch, showing those who are struggling that healing is possible, and providing many with the tools they need to make positive life changes.

We endorse Fantail Studios as a great ministry to support.

Yours sincerely
