

Required Material & Equipment

Marine & Mooring Equipment

The John Lawrie team is always looking to purchase new and used marine mooring equipment for reuse or resale. We are interested in any material from this sector, especially when part of a larger package of items including mooring buoys, winches, hydraulic power packs, and so on.

1. New and used **anchor chain**
 - Prime sizes: 76mm, 84mm 92mm & 102mm (stud link)
 - Un/certified
 - All grades
 - Stud-less anchor chain (100mm & above)
 - Minimum lengths - 27.5m / 90ft

2. New and used steel **wire rope**
 - Prime sizes: 76mm, 83mm, 90mm & 102mm
 - Coiled or on drums/reels
 - Un/certified
 - All grades
 - Minimum length ideally 100m (*although all lengths considered*)

Plate, Columns & Sheet Piling

We are always interested in purchasing surplus steel parcels for either reuse or resale. Examples of material we regularly purchase are to follow, however, we are interested in all packages of surplus engineering or construction sections.

1. New and used **steel plate**
 - Prime thickness: 10mm & above
 - Prime sizes: 4m x 2m & larger
 - Un/certified
 - All grades

2. New and used **columns**
 - Prime sizes: 8" to 20"
 - Un/certified
 - All grades

3. New and used **sheet piling**
 - All sizes
 - Un/certified
 - All grades

4. '**CANS**'/bracing tubes
 - 15mm thick and above
 - Good condition/no corrosion
 - Subject to inspection (item x item)

Flexible Risers, Flowlines, Umbilicals & Reels

We offer services around the disposal and recycling of flexible risers, flowlines and umbilicals and as such we are interested in the purchase of these items, along with the steel reels they are stored on.

1. Flexible riser, flowlines and umbilicals

- New and used
- Individual make-up of riser, flowline and umbilical dictates value - provision of specification sheets would be required
- Please inform of any fluids contained within product

2. Steel reels

- New and used
- Un/certified
- Structurally intact
- All sizes

Drillpipe, OCTG & Casing Pipe

We are always looking to purchase new and used drillpipe, OCTG, casing pipe or any tubular product associated with oil and gas exploration and production.

- All sizes from 2-3/8"
- Used/new condition
- Un/certified
- All grades

Reuse and recycling are key concepts of our business. We strongly advocate the circular economy which is based on the principles of designing out waste and pollution, keeping products and materials in use, and regenerating natural systems.

For over two decades we've been repurposing redundant casing, tubing and drill pipe from the North Sea oil and gas industry as a high-quality replacement for traditional concrete piles in the construction industry.

To date we have supplied millions of tonnes of steel tubulars for use as piling which has minimised waste, saved an equal volume of CO₂ emissions and helped establish a more robust economy.
