Jump-Start Workshop

Education Content and Strategy... Realized

During the two-hour Jump-Start Workshop, Blue Sky’s Learning Strategy and Development team will lead you through an action-packed interactive discussion around your learning content and deployment strategy. Based on your choice, our foremost learning experts will focus on 2-4 of the biggest questions facing every learning initiative, including how to:

- Define your organization’s long- and short-term education strategy
- Unify your content in terms of look, feel, and instructional method
- Determine what tools and coaching you will need to create the learning content you want
- Evaluate the current effectiveness of your eLearning
- Understand the money side of eLearning, such as defining your business model and time/costs associated with eLearning development
- Establish how best to organize your content on Path to gain maximum traction and viewership
- Discover the essential elements for planning and executing virtual events

Let’s Jump-Start Your:

- Content
- Strategy
- Vision
- Goals
- Learning Initiatives

Limited times are available. Contact us today!
