

SCRYPT

Your Institutional
Digital Asset Partner

Fast and Reliable Institutional-Grade Algorithmic Execution

Bringing Digital Asset trading to an Institutional Quality Level. Finally.

no more slippage,
no more latency,
no more downtime,
zero fees.

Institutional-grade execution

Access market depth and best aggregate pricings with one-API/UI with 99.9999% up-time. Our Smart Order Routing (SOR) technology ensures that your trades always hit the optimal volume and price. We save our clients from paying outrageous spreads.

Faster than light

Get connected to our ultra-fast API, trade in milliseconds and settle at the speed of light, up to 24x faster vs our competitors. Our average settlement time is 54 minutes.

Solid like a (Swiss) rock

We are regulated in Switzerland, not in an obscure jurisdiction. Your assets are protected with Institutional-Grade multi-layer security matrix that layers MPC, Intel SGX, policy engine, and a deposit address authentication network to deliver the most impenetrable system on the market.

Unrivalled execution, trading universe and integration

35+

Venues Connected

Execute institutional-size orders without slippage or latency. Our technology guarantees the deepest possible liquidity and smoothest execution.

2,000

Trading Pairs

Trade liquid pairs on all major Digital Assets not only in USD, EUR but also GBP, CHF and 30 other FIAT currencies. We are the best partner for multi-currency asset managers and exchanges.

API

Protocols available

All services accessible via API (Websocket), integration with OMS providers for easier onboardings. Support via chat or voice.
