

MEDIA ALERT: Charge CEO and Co-Founder Andrew Fox to Present at LIC Summit on Advancing Micromobility in Long Island City

NEW YORK – Nov. 15, 2019 –

Who: [Charge](#), a micromobility company dedicated to building the largest network of electric charging, storage and service stations for e-scooters and e-bikes, today announced that Andrew Fox, CEO and co-founder of Charge will present at the sixth annual [LIC Summit](#), presented by the Long Island City Partnership. This year's Summit will explore how Long Island City (LIC) is paving the way for innovative leaders in the fields of co-living and co-working, entrepreneurship, life science and mobility.

What:

- **Panel Speaking Session:** On Tuesday, Nov. 19 at 11:30 a.m. ET, Charge CEO and co-founder Andrew Fox will participate in a panel, [Advancing Mobility in LIC](#), hosted at The Museum of the Moving Image.
 - In a panel moderated by Tom Wright, president and CEO of Regional Plan Association, Andrew Fox will be joined by executives from Circuit, Metropolitan Transit Authority and Revel. The session will focus on how addressing LIC's twentieth-century, Manhattan-centric transportation model will require both new thinking on existing systems, as well as careful incorporation of new modes – such as on-demand shuttles and e-scooters – in a way that does not overwhelm the public realm. Come hear from some of the most forward-thinking transportation leaders and entrepreneurs to discuss how these issues of accessibility and mobility can be solved.

Where: The Museum of the Moving Image, 36-01 35th Avenue, Astoria, NY 11106

When: Tuesday, November 19 at 11:30 a.m. ET

About Charge

Charge is a micromobility company dedicated to building the largest network of electric charging, storage and service stations for e-bikes and e-scooters. The company's docking stations will be installed in privately-owned parking garages, lots and spaces throughout major markets around the world, providing a convenient, safe and cost-effective space to charge, store and service e-vehicles, while reducing e-vehicle clutter on city streets and sidewalks. Charge has entered into numerous agreements with garage operators and property owners, securing a network of nearly 2,500 locations to install its docking stations. Charge is also developing a proprietary mobile application that will interface with its docking stations and provide users with available locations as well as real-time e-vehicle availability of partnered rideshare platforms. For more information, please visit [charge.us](#), and connect with the company on [Twitter](#) and [LinkedIn](#).
